REVIEW OF EAR NOSE AND THROAT

- I can't count how many times I read this book as a child and teenager. It is my all time favorite. I considered checking it out, "losing it", and paying for it when I was first teaching in the late 70's but decided I would feel too guilty. I wish I had a copy to read to my classes. This is one book that should be reprinted and made available to today's children.

- The real question in this book is all about Faith - the child and who has faith in her and the mother and whether she can have faith in herself again. The grandmother is the real hero in this story, helping the neglected grandchild and always being there for her distraught daughter, who can't handle her husband's infidelities. Jodi Picoult seems to have a thing for weak women who buckle under the tragedies of life who have to find an inner strength and overcome their innate desire to hide from the world. Repetitive, but compelling.
