*Vedic Hymns* Brill Academic Pub

Body and Cosmos presents a series of articles by renowned Indological scholars on the early Indian medical and astral sciences. It is published on the occasion of the 70th birthday of Professor Emeritus Kenneth G. Zysk.

**Indian Fire Ritual** Penguin UK

A study of the way of writing of the Vedic mystics, their philosophic system, their system of symbols and the truths they

figure, and translations of selected hymns of the Rig-Veda. Is there at all or is there still a secret of the Veda? Sri Aurobindo asks in the opening sentence of this book. He examines the ritualistic and naturalistic theory of nineteenth-century European scholars and then sets forth his own view: The hypothesis I propose is that the Rig-veda is itself the one considerable document that remains to us from the early period of human thought of which the historic Eleusinian and Orphic mysteries were the failing remnants, when the spiritual and psychological knowledge of the race was concealed, for reasons now difficult to determine, in a veil of concrete and material figures and symbols which protected the sense from the profane and revealed it to the initiated... To

disengage this less obvious but more important sense [of the Vedic ritual system] by fixing the import of Vedic terms, the sense of Vedic symbols and the psychological functions of the Gods is thus a difficult but necessary task, for which these chapters and the translations that accompany them are only a preparation. Contents: The Problem and its Solution: A Retrospect of Vedic Theory; Modern Theories; The Philological Method of the Veda; Agni and the Truth; The Victory of the Fathers; The Conquest over the Dasyus; Selected Hymns; Hymns of the Atris; The Origins of Aryan Speech . Subjects: Indology, Philosophy

**Rules Without Meaning** Oxford University Press

Ritual was a cradle of archaic philosophy

in India. Mythological concepts were synthesized in the ritual context, and its results gave a new interpretation to the rituals themselves and to the life of man. The Agnihotra ritual is experienced differently by those who know what it is, and life is experienced differently by those who carry out the Agnihotra. A ritual presents us with a riddle which actually has no answer. What matters is not the intrinsic meaning, but the process in which the meaning is generated. It is true that ritual is pure activity without meaning or goal, but it is not meaningless in the sense that it generates riddles, and eventually meanings. This study is a philological study of the Vedic mythology, while also being a contribution to ritual studies. (Series: Nijmegen Buddhist and Asian

Studies - Vol. 2)

Exploring Mysticism BRILL

In performances by Euro-Americans, Afro-Americans, Native Americans, and Asians, Richard Schechner has examined carefully the details of performative behavior and has developed models of the performance process useful not only to persons in the arts but to anthropologists, play theorists, and others fascinated (but perhaps terrified) by the multichannel realities of the postmodern world. Schechner argues that in failing to see the structure of the whole theatrical process, anthropologists in particular have neglected close analogies between performance behavior and ritual. The way performances are created—in training, workshops, and rehearsals—is the key

paradigm for social process.

*Handbuch Der Orientalistik* Oxford University Press

This book is an attempt to explain the most basic ritual called Isti with the help of the original texts and the photographs of the actual performance of that sacrifice that took place in Pune, India, in July 1979. The book contains in all 140 photographs showing various stages of the sacrifice with explanation of the rites. It also provides a Roman transcript of the Sanskrit text of the Pavitrestiprayoga along with its English translation.

This Is A Remarkable Book. It Untangles The Many Complexities Of The Vedas And Combines Staal S Scholarly Respect For The Texts, With Explanations That Are Lucid And Occasionally Witty. His Insights Are Thoughtful And Perceptive. Romila Thapar In This Unprecedented Guide To The Vedas, Frits Staal, The Celebrated Author Of Agni: The Vedic Ritual Of The Fire Altar And Universals: Studies In Indian Logic And Linguistics

Examines Almost Every Aspect Of These Ancient Sources Of Indic Civilisation. Staal Extracts Concrete Information From The Oral Tradition And Archaeology About Vedic People And Their Language, What They Thought And Did, And Where They Went And When. He Provides Essential Information About The Vedas And Includes Selections And Translations. Staal Sheds Light On Mantras And Rituals, That Contributed To What Came To Be Known As Hinduism. Significant Is A Modern Analysis Of What We Can Learn From The Vedas Today: The Original Forms Of The Vedic Sciences, As Well As The Perceptive Wisdom Of The Composers Of The Vedas. The Author Puts Vedic Civilisation In A Global Perspective Through A Wide-Ranging Comparison With Other Indic

Philosophies And Religions, Primarily Buddhism For Staal, Originally A Logician, The Voyage Of Discovering The Vedas Is Like Unpeeling An Onion But Without The Certainty Of Reaching An End. Even So, His Book Shows That The Vedas Have A Logic All Their Own. Accessible, Finely-Argued, And With A Wealth Of Information And Insight, Discovering The Vedas Is For Both The Scholar And The Interested Lay Reader.

Indien. Zweite Abteilung Lotus Press

The discovery of fire is a very important event in the human civilization. In ancient times, however, it was difficult to create fire. This gave rise to the idea of maintaining the fire all the time and also to fire-worship. Thus, the fireworship is very common in most of the religion in the world.

Illustrations; Plates; 30cm. - The present lexicon explains the meaning and significance of ritualistic terms frequently occurring in the Srautasutras, together with a short description of the sacrificial rites connected or meant therewith. It is an outcome of the engagement of the author with the Srautasutra ritual for a very long time. He has not only a first hand knowledge of the texts but also a practical acquaintance with the subject acquired through participating in such sacrifices. Every term has been traced back to its original source for which exact references have been provided. A proper understanding of the technical terminology of the Vedic ritual is a pre-

condition for understanding ritualistic texts connected with the Vedas and also the sacrificial performance mentioned therein. No proper understanding of a Srautasutra is possible without knowing the basic concepts and the details of the ritualistic terms. Sketches and photographs of Vedic implements and performances are an added advantage of this lexicon, which will help the reader immensely in understanding the related terms. The dictionary is the first of its kind in view of its vast coverage, authenticity and reliability. We are sure that it will prove to be an indispensable asset for every scholar who wants to familiarize himself with the Vedic ritual and the philosophy behind it.

AgniThe Vedic Ritual of the Fire Altar

### **The Non-Solemn Rites** BRILL

"Rules Without Meaning" is an original study of ritual and mantras which shows that rites lead a life of their own, unaffected by religion or society. In its analysis of Vedic ritual, it uses methods

inspired by logic, linguistics, anthropology and Asian studies. New insights are offered into various topics including music, bird song and the origin of language. The discussion culminates in a proposal for a new human science that challenges the current dogma of - the two cultures- of sciences and humanities."

Concept of Jātavedas in Vedic Literature

AgniThe Vedic Ritual of the Fire AltarThe first volume of Agni: The Vedic Ritual of the Fire Altar, contains a discussion of the place of the Agnicayana in the Vedic sruta tradition, its textual loci, traditional and modern interpretations of its origins and significance and an overview of the Nambudiri Vedic tradition. The bulk of the volume, written in close collaboration with C.V. Somayajipad and M.Itti Ravi Nambudiri, is devoted to a detailed description of

the 198\75 twelve-day performance, richly illustrated with tipped-in photographs, mostly in colour and almost all by Adelaide de Menil. There are numerous text illustrations, tables and maps. The mantras are published in Devanagari and translation. The second volume, edited with the assistance of Pamela MacFarland, contains contributions by an international galaxy of scholars on archeology, the pre-Vedic Indian background, geometry, ritual vessels, music, Mudras, Mimamsa, a survey of Sruta traditions in recent times, the influence of Vedic ritual in the Homa traditions of Indonesia, Tibet, China, Japan and related topics. There are translations of the relevant Sruta Sutras of Baudhayana (together with Calanda`s text) and the Jaiminiya (with

Bhavatrata's commentary) as well as the Kausitaki Brahmana; and a survey of the project with an inventory of the films and tape recording made in 1975. ## **REVIEW OF AGNI THE VEDIC RITUAL OF THE FIRE ALTER 2 VOLS**

- My 7-year-old granddaughter loves the book, and I found it endearing.
- Stott brings Darwin to life! An extraordinary story, so well crafted it brings a wonderful sense of humanity to the history of science. Primarily, `Darwin and the Barnacle' brings into focus the central essence of Darwin as a human

being. It presents Darwin's raw excitement with life, seemingly ignited while strolling studiously (almost romantically) along the foreshores. Which in turn encouraged him to undertake his famous tour of discovery upon the Beagle. The sensitivity of the author helped develop in me an understanding of and interest in Charles Darwin as a person. I was moved by learning more about the man and how he lived his life; by the grief he experienced as his beloved daughter died, how his wife and he read to one another, about his ill health, his day to day activities and about his dedication if not dogged determination of his scientific observations. In reading this book I came to understand how much time and energy Darwin dedicated in

undertaking his labourious investigations into barnacles, how this hard work paved the way for honing his monumental work on the 'Origin of the Species'. Yet for me it is not a defence of evolution, but rather its Darwin who is placed under the microscope. It was literally as if Stott

breathed life back into Darwin - which suddenly took on more importance than the revolutionary achievements that he is so well regarded for. 'Darwin and the Barnacle' is a great book I only wish I had read this book when I was a geological student.
