## REVIEW OF FUNDAMENTALS OF NITRIDING AND NITROCARBURIZING

- Follow young Matt Dodson as he enters the academy in hopes of becoming a Space Cadet. Matt makes friends with Tex, who

always has amusing tales about his Uncle Bodie, and a few others, as lessons are learned ... usually the hard way. Space Cadets are the elite guard of the solar system. They accept missions others fear, take risks no others dare, and uphold the peace of the solar system for the benefit of all. (Much like the Jedi Order!) This novel will take you from Earth, to Mars, to Venus, and beyond. Matt and his friends are tested in the most severe and extraordinary ways that will change them forever, but still not prepare them for the alien treacheries that await.\*\*\*\* If you have never read a novel by Robert A. Heinlein, then please keep in mind that this was written in the year 1948. The author renewed the copyright in 1975. I stress this because even though the story begins in July 2075, there are a few references to

events that supposedly happened in OUR past, such as the notation of the person who created the Patrol's Tradition who lived 1969 - 1996. The fact that Robert A. Heinlein's novels are still being published today clearly expresses how outstanding readers find his science fiction novels. Once you read this, or any other novel by Heinlein, you will have no doubt as to how the man came about being crowned "The Master of Science Fiction".

- This was the only Tomcat book available at the time I was looking, so I decided to pick it up to enhance my knowledge. However, almost all the information I found in it was available, sometimes verbatim, online.
