*Emergency Triage Assessment and Treatment (ETAT)* John Wiley & Sons

Deaths in hospital often occur within 24 hours of admission. Many of these deaths could be prevented if very sick children are identified soon after their arrival in the health facility and treatment is started immediately. Therefore, a process of rapid triage for all children presenting to hospital needs to be put in place to determine whether any emergency or priority signs are present. This 3 1/2-day training course builds on the WHO Emergency Triage Assessment and Treatment (ETAT) guidelines as contained in the Pocket book of hospital care for children . It provides participants with the reading materials to prepare themselves for the modules taught in the course. Guidance on how to conduct the training is contained in the parallel facilitator's guide. This training course can be included in a quality improvement process, which targets the whole hospital or it can start such a process.

*The Practical Approach* Churchill Livingstone

This book covers all of the important elements of paediatric anaesthesia in a concise and structured manner. From the premature infant to the teenager, readers are guided through the complexities they may encounter, with key points at the end of each chapter to summarise the most important information. The common surgical conditions encountered in daily practice are covered along with comprehensive discussion of consent and the law, safeguarding children, and the complexity of drug dosing in the paediatric population. Other topics covered include trauma, burns, resuscitation, principles of intensive care, and transporting a sick child. Each chapter is written by an acknowledged expert in their field, sharing a wealth of relevant, practical experience. Covering the whole curriculum necessary for advanced training, this is essential reading for trainees, general anaesthetists managing children in non-specialist hospitals and anyone aspiring to become a paediatric anaesthetist, as well as those established in the field.

## REVIEW OF ADVANCED PAEDIATRIC LIFE SUPPORT APLS AUSTRALIA

- **WARNING:** This book looks good. It has an interesting plot. Do not be fooled by its 4.5 star rating on Amazon.com. Side effects may include nausea, boredom, and downright depression for wasting time. This book is very slow, boring and has terrible writing! I mean, there's this one part that is something like: "The deserted place was empty." COME ON!!! Do not read this book!

- Have read the first four of Child's Jack Reacher books. They all have had some parts that are really unbelievable but so much of this one is it is unreal. Reacher is blackmailed into helping the FBI track down a serial killer. Why is the killer taking out single women? The connection seems to be they were all military and filed charges of sexual harrasement charges against a higher authority. But is that the reason? We have Julia Lamarr and Nelson Blake, bad FBI agents and Lisa Harper, good FBI agent. I really think a lot of the actions by the FBI is really what is happening in the world today. Women keep getting killed in bathtubs covered in paint. How did they die? No one can figure out. Jack must be slipping, the FBI has followed him for a week and he is not aware of it. The crimes take place to far apart and it takes forever for Jack to explain to Lisa how he knew who the killer was. I agree with other reviewers that Jack needs to clean

up more often. I guess I will read more about Jack Reacher but hope the next one is more believable.
