## REVIEW OF EMERGENT CURRICULUM IN EARLY CHILDHOOD SETTINGS FROM THEORY TO PRACTICE

- I rushed into the store to pay the 20 dollars for this book thinking that it would live up to the excitement of the others. i

began thinking that maybe i was less exciting 10 years ago and didn't know any better. But i really have to believe that the writing of the previous 4 books in the series did not have such predictable sex scenes and "caveman" language. The dialogue is so staccato as to be baby like. very annoying.

- The Shelters of Stone: Earth's Children To say that I was appalled by the bad reviews of this book would be an understatement. I read several of the "bad" reviews after reading the book a couple of times AND listened to it on audio. Perhaps I read a different book than did some of the reviewers. I read "The Shelters of Stone" by Jean Auel and loved it. It carried the same flavor and style of the first four books of the series and I am anxiously waiting for the next book. Perhaps what some whiney people didn't figure out was that Ayla and Jondular have finished their year long journey and are now settling in to his home and her new home. They get married and start a family. They deal with ignorance and bigotry. They teach new ideas. They become constructive members of their community. (unlike some of the reviewers) One reviewer claimed to have skipped parts and skimmed other parts ... actually admitting to not having read the entire book ... and still had the nerve to say it was bad. Another reviewer said Auel wasn't good at writing... and another said Auel didn't even write the book... and on and on and on... To the people who spent paragraphs complaining and whining about how bad they thought the book was, listen up... Where I come from, we have a saying .... "put up or shut up". In other words, do it better (if you think you can) or quit complaining. People, give it a rest! The book was fun. I laughed at times. I cried at times. I was entertained. Jean Auel did her job. I am patiently waiting (with more manners than some reviewers) for book 6.
