Gender, Race, and Class in Media provides students a comprehensive and critical introduction to media studies by encouraging them to analyze their own media experiences and interests. Editors Bill Yousman, Lori Bindig Yousman, Gail Dines, and Jean McMahon Humez explore some of the most important forms of today's popular culture—including the Internet, social media, television, films, music, and advertising—in three distinct but related areas of investigation: the political economy of production, textual analysis, and audience response. Multidisciplinary issues of power related to gender, race, and class are integrated into a wide range of articles examining the economic and cultural implications of mass media as institutions. Reflecting the rapid evolution of the field, the Sixth Edition includes 18 new readings that enhance the richness, sophistication, and diversity that characterizes contemporary media scholarship.

Blea's holistic approach looks at academic studies on race, class, and gender and the social situation of La Chicana—a minority female whose life is influenced by racism and sexism. The wide-ranging text focuses on the history of La Chicana, considering her socialization process and the consequences of deviating from gender roles. Current social problems and the evolution of Hispanic women onto the national scene in politics, economics, criminal justice and more are detailed. This volume utilizes the cross-cultural, historical and ethnographic perspective of anthropology to illuminate the intrinsic connections of race, class and gender. The author begins by discussing the manner in which her experience as a participant observer led her to research and write about various aspects of African-American women's experiences. She goes on to provide a critical analysis of the new scholarship on African-American women, and explores issues of race, class and gender in the arenas of work, kinship and resistance.

**Race, Ethnicity, Gender, and Class** Routledge

Sociological literature tends to view the social categories of race, class and gender as distinct and has avoided discussing how multiple intersections inform and contribute to experiences of injustice and inequity. This limited focus is clearly inadequate. Systemic Crises of Global Climate Change is an edited volume of 49 international, interdisciplinary contributions addressing global climate change (GCC) by intentionally engaging with the issues of race, gender, and class through an intersectional lens. The volume challenges and inspires readers to foster new theoretical and practical linkages and think beyond the traditional, and oftentimes reductionist, environmental science frame by examining issues within their turbulent political, cultural, and personal landscapes. Varied media and writing styles invite students and educators to reflexively engage different, yet complementary, approaches to GCC analysis and interpretation, mirroring the disparate voices and viewpoints within the field. The second volume, Emergent Possibilities for Sustainability will take a similar approach but will examine the possibilities for solutions, as in the quest for global sustainability. This book is a valuable resource for academics, researchers and both undergraduate and post-graduate students in the areas of Environmental Studies, Climate Change, Gender Studies and International studies as well as those seeking a more intersectional analysis of GCC.

The United States boasts scores of organizations that offer crucial representation for groups that are marginalized in national politics, from women to racial minorities to the poor. Here, in the first systematic study of these organizations, Dara Z. Strolovitch explores the challenges and opportunities they face in the new millennium, as waning legal discrimination coincides with increasing political and economic inequalities within the populations they represent. Drawing on rich new data from a survey of 286 organizations and interviews with forty officials, Strolovitch finds that groups too often prioritize the interests of their most advantaged members: male rather than female racial minorities, for example, or affluent rather than poor women. But Strolovitch also finds that many organizations try to remedy this inequity, and she concludes by distilling their best practices into a set of principles that she calls affirmative advocacy—a form of representation that aims to overcome the entrenched but often subtle biases against people at the intersection of more than one marginalized group. Intelligently combining political theory with sophisticated empirical methods, *Affirmative Advocacy* will be required reading for students and scholars of American politics.

## REVIEW OF FEMINIST ISSUES RACE CLASS AND SEXUALITY 5TH EDITION

- It's certainly easy to see why this book is a classic. The haunting story of Francie Nolan, a young girl living in poverty in Brooklyn, strikes a chord deep within all of us. Beautifully told, this story draws us into Francie's early-20th century life-her father's drunkenness, her mother's disillusionment with life, her deep love of books- and makes us respond with empathy. This is certainly one of those books that transcends descriptions-it is simply a book about life that has become a classic because of its enduring truths. Betty Smith's strong main character, keen and startlingly truthful observations about life, and stark descriptions make this an unforgettable read-deserving many more than five "stars."

- I absolutely loved this book. It broke my heart during parts though, I had never realized how different times were then. It is a bit long, but I found that in the end, the extra length was worth it. Francie is by far one of my favorite characters I have come upon in any book. Those looking for an exciting book may want to back away from this one, but those wishing to read a wonderful piece of literature definitely need to pick this up.
