Beginning Tagalog Summit Publishing Company Inc.

A comprehensive, one-year introductory textbook for Tagalog, the language spoken in the Philippines. *Beginning Tagalog* has been designed to meet the specific needs of adult native speakers of English who wish to learn spoken Tagalog, though students with other language backgrounds may be able to follow the course with profit. With fairly

intensive class scheduling, and assuming laboratory assignments and home study, the text can be covered in one academic year. The text is designed to accomplish two aims. The first is to impart oral control of Tagalog and, by means of an acquaintance with the major patterns of the language, to provide the means for additional independent study that will lead to a full mastery of the structures and a vocabulary that is sufficiently broad to meet the needs of most students. The second aim is to provide accurate, up-to-date information about the patterns of Filipino culture that will enable a student to understand the social customs, standards, values, and aspirations of the Filipino people, in order to prepare him for sympathetic, enlightened, and useful participation in

the context of Filipino society. . . . The text consists of 25 units and appendices. In the first half of the text, the student plays the part of hearer and speaker, with only incidental reading of oral dialogs and drills. From Unit XIII on there is a reading section designated for each unit, correlated with the primarily spoken materials, but designed to promote facility in the orthography and distinctive patterns of the written language. . . . The basic format is as follows: A. Basic Dialog B. Cultural and Structural Notes C. Pronunciation Exercises (to Unit XIII) D. Drills and Grammar E. Cumulative Drills F. Visual-Cue Drills G. Comprehension-Response Drills H. Readings (from Unit XIII)"

REVIEW OF BAHAY NI KUYA 2 FULL STORY

- Perhaps I would have liked this book if I hadn't read "I Am Charlotte Simmons" so recently (last year). I didn't much care for "Simmons," but I pushed through it, determined to finish. 50 pages into "Prep" I felt like I was reading "Simmons" part 2 and couldn't go on. It is very

similar in tone and writing style as well as plot. If you loved "Simmons" then you'll probably love "Prep," too. If you didn't care for the former, however, I suggest skipping the later.

- This book is definitely not an inaccurate portrayal of Prep schools. I admit I go to one, and this is a very accurate portrayal of teenage girls in rich prep schools, and can even relate to teenage guys. Curtis Sittenfeld is a

teacher at my school, St. Albans School, and almost everyone in the school has picked up a copy of the book. Ms. Sittenfeld admits that some experiences from her teaching at St. Albans affected her book, and after attending St. Albans and reading the book I can tell you its true. Admittedly from what I hear Ms. Sittenfeld isn't quite the best teacher in the school, but she's an amazing author and you have to pick up a copy of "Prep"!
