REVIEW OF ATLAS COPCO EWD 330 MANUAL

- Here's a perfect candidate for required reading in highschool that so aptly displays

the triumph of the human and the American spirit and such healthy evidence of the melting pot at work and provides a more worthwhile reward than the dystopic books like 1984, Lord of the Flies and Animal Farm that drive students away from the delights of learning. The author, like my grandmother had little formal schooling but, to paraphrase Mark Twain, she didn't let that interfere with her education. Books were hard to come by but they were read carefully and repeatedly. Since books were rare on the frontier and the Old West, they tended to be made up of the Classics often shared or resold, even in Western towns that sported used book stores as well as the more infamous saloons. The anecdotes recorded in these letters are as informative as they are delightful. Here is a wonderful non-fiction account of ordinary people in extraordinary circumstances and by today's standards, extraordinary people in extraordinary circumstances. Authors like Updyke, Baldwin and Mailer pale before these letters, so full of life and the true spirit of the pioneer. Here discover the can-do attitude that is often missing from our society today. Many of us would enjoy a long conversation with our great grandmother, here's a wonderful opportunity! Even though Amazon delivers this book free

to your Kindle or Kindle app, it is worth far more than so many other books costing more. The people you will meet in this wonderful volume will stay with you a long time and certainly inspire you when you reflect upon your own hardships and disappointments.

- I don't understand WHY the author felt he had to rehash the

Trinity story. I loved that book, and was looking forward to the creation of some other three dimensional, admirable characters. There are none in this book. I wish, as someone else who reviewed this book mentioned, that I hadn't tried to read it, because I loved Trinity so much. If I could I'd rate it NO stars. Or minus three.
