So what are you awaiting? Beginning your Khajuraho downloading journey today and experience all the advantages and convenience that the digital world of books needs to supply!

REVIEW OF KHAJURAHU

- Jeff McAndrew tells the story of living with and loving his son Stephen, who happens to have autism. The straight-forward, open approach to a wide variety of topics should be of great help to other families dealing with this condition. I especially appreciated the addition of comments of others - parents and professionals - who also are concerned about children with disabilities. It's important to remember that interventions which are effective for one child with autism may not be at all helpful to another, and vice versa. Finding interventions that work, as well as a strong support network, can make a critical difference in a family's ability to enjoy and appreciate a special child such as Stephen.

- Excellent and well-written book. Recommended reading for young adults and older. We must all remember what atrocities were committed in Europe and other countries. It is a testament to the human spirit and the capacity to survive terrible circumstances. This book will become a permanent part of our family's library.
