REVIEW OF TLC ANALYSIS OF ASPIRIN AND SALICYLIC ACID

- this is a charming book that my

daughter loves. simple and sweet.

- At the risk of sounding crude, I am annoyed at people who launch attacks at a fine, well produced product like Behind the Wheel Italian, who don't even know how to spell. That said, let me get on with why I love this course. It is obvious that it is professionally produced because much of it was recorded in 1993 when digital computer recording was not available for the most part. I bought my first Language Dynamics Italian course in 1993, it was cassette of course and the label gave the name of the studio in which it was recorded. Once again, the package (which is innocent because it is excellent) is attacked and the content (which is outstanding) is ignored. Now, on to the content. To sum it up briefly, IT REALLY WORKS. This method is simple, fast and very user friendly. It gets you really speaking Italian without even noticing HOW you're doing it. It actually teaches you how to speak Italian like you learned English as a child.
