REVIEW OF ABSOLUTE BEGINNERS GUIDE TO COMPUTER BASICS

ABSOLUTE BEGINNERS GUIDES QUE

- Red Storm Rising starts out with muslim men blowing up a oil/gas factory in the former U.S.S.R., and now due to the damage, the hard-line high power Soviet leaders now have to make a decision; let the Soviet economy come to it's knee's, or take out NATO and invade the Middle East for their oil? Destroy NATO and her allies and invade the Middle East. So now, as the Soviet military head's to war, they then plan to get everything in order in 4 months to fight NATO. As the story goes along, we meet Bob Toland; a US Navy captain who is fighting against the Soviet's for their bid for

the Middle East. The battles take place in Iceland, and the Baltic sea thanks to submarines. As the battle gets fiercer, the Soviet's think they have NATO done, but things take a turn for them, and they are being swept back to mother Russia and away from the Middle East. Then in a huge battle to end the war, the Soviet's then back away from their strong holds, and are driven back to their own lines. Eventually WW3 is over, and the Soviet's take a serious defeat. Red Storm Rising is a very

interesting novel, although the Soviet Union is long gone, the book still holds its place as one of the best war novels out there. Also, not only do NATO take a beating, the Soviet's take a beating also, winning some, losing some. A great novel, and definitely one of my favorites.

- A collection of all kinds of ghost stories from headless horseman, poltergeists, spirits that are hundreds of years old and even ghosts coming back from the dead for revenge!!
