REVIEW OF CENGAGE ADVANTAGE BOOKS BUILDING A SPEECH

- Khayyam's poetry is a beacon of honesty and courage in a writing form rife with the romantic, silly and childish. Poetry has almost exclusively been the domain of the mystifiers and the pretentious. Khayyam's message is looked down upon by the people who don't have the courage to be pessimists and instead hide behind their daddy in the sky or in some metaphysical womb. Khayyam, like Lucretius, looked honestly around him and drew the conclusions we all know deep down to be true but are usually too weak to admit. Khayyam knew life was an absurdity and the

greatest absurdity was not to enjoy yourself and do and think as you please. After all, this is the REAL religion that the world has always adhered to, whatever its pretenses to the contrary. After reading Khayyam almost all other poets seem insipid by comparison. Every poem is exquisite and has the ring of truth. Never mind if Fitzgerald's translation is not faithful to the original Persian; the miraculous, yet simple truth of Khayyam comes through just the same. If you buy one book of poetry in your life make this book the one.

- First off I have to say that I am a bit biased as "That Which Survives", the episode that this is a sequel to, was one of my favourite shows. Having said that this is yet another recent Star Trek novel that continues the downward slide in the quality of story telling. Here we have a novel that takes 230 plus pages to tell a story that could have been told in 150. It is full of redundant padding, it has one of the most overused Star Trek cliches in the form of the interstellar transporter, the Klingon involvement is an utter waste of time, and the regular Enterprise crew seem to spend much of their time doing nothing. As for the ending it's just another attempt to improve sales by getting people to buy more than one book, but of course if the writing quality of recent Star Trek novels was any good there wouldn't be the problem of falling sales in the first place. Personally this novel, which seems aptly named, is another one that rather than being written seems to have been created by a replicator !!!
