REVIEW OF WING CHUN FORMS STEP BY STEP

- This book won both the 2001 Ruth Schwartz Award for Excellence in Canadian Children's Literature and The Mr. Christie Award for best Canadian Children's book for children ages 7 and under published in 2000.
- I wanted to like this book, but unfortunately it's not worth the paper it's printed on. There is more and better information

available free on Mike Weasner's terrific website (referenced on almost every page of the book). Nor does the book provide a valuable and handy reference - the long text articles about tuning the scope etc lack diagrams, illustrations, useful pictures... I almost laughed when the Seasonal Name Star Charts appeared several to a page and so small as to be utterly useless. Want to know how to carry your ETX outside? This book is for you. Want to know anything about accessories, programming the AutoStar, what the inside of the ETX looks like, CCD imaging, or similar topics? Forget it, it's not in there. Conclusion: If you want a good astronomy book, consider "The Backyard Astronomer's Guide" or "NightWatch". If you want ETX-specific information, visit Mike Weasner's website. And save your money until a useful ETX book is published - there is a need for one, but unfortunately this is not it.
