REVIEW OF MATHS PAST EXAM PAPERS FORM 3

- The hullabaloo

surrounding the book will lead one to believe that this is an epitome of all adventure/suspense stories. In reality, the book is nothing but a wanderings of a disturbed mind, disillusioned with life and suffering from abnormalities of mind - so common among soldiers after attending a bloody war. Those readers who praise the book sky-high must have some ulterior motive in mind; otherwise this is a shoddy piece of work and written obviously with a film script in mind rather than a book, which anyways what Hilton was, scriptwriter in Hollywood! His other tiny book Goodbye Mr. Chips is a better read and doesn't pretend to be something else or is

it we who label a book. No wonder Lost Horizon is out of print and should remain so. I don't blame the writer as much as the so-called critics, readers and other writers for whom the world begins in Western Europe and ends in North America. A very myopic view! Rebuttal to Moonwynd: This book is described as an ADVENTURE story by eminent scholar Mr. Sam Van Schaik in his book: Tibet, A History!

- David Kline and Dan Burstein have been around for decades as respected author/journalists. They may not have great "street cred" among bloggers, but I've never expected a crime reporter to commit murder before writing about it and I certainly wouldn't trust

a political writer more because he were a politician. This book is a critical investigation into the many ways that blogging is rapidly changing our world -- from culture to business to science to politics -- and in the arena of such trend-synthesis, the author/editors reek of cred. The essays are far-reaching and insightful, and the analysis pulls them all together clearly and cohesively. A virtual Bible of the Blogosphere.
