Excerpt: Joseph Raymond "Joe" McCarthy (November 14, 1908 - May 2, 1957) was an American politician who served as a Republican U.S. Senator from the state of Wisconsin from 1947 until his death in 1957. Beginning in 1950, McCarthy became the most visible public face of a period in which Cold War tensions fueled fears of widespread Communist subversion. He was noted for making claims that there were large numbers of Communists and Soviet spies and sympathizers inside the United States federal government and elsewhere. Ultimately, his tactics and inability to substantiate his claims led him to be censured by the United States Senate. The term McCarthyism, coined in 1950 in reference to McCarthy's practices, was soon applied to similar anti-communist activities. Today the term is used more generally in reference to demagogic, reckless, and unsubstantiated accusations, as well as public attacks on the character or patriotism of political opponents. Born and raised on a Wisconsin farm, McCarthy earned a law degree at Marquette University in 1935 and was elected as a circuit judge in 1939, the youngest in state history. At age 33, McCarthy volunteered for the United States Marine Corps and served during World War II. He successfully ran for the United...

In this second edition of *Orchestral "Pops" Music: A Handbook*, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful "pops" concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised handbook alleviates the time-consuming task of researching these changes by offering a list of works for

orchestral “pops” concerts that is comprehensive, informative, and current. Manning’s emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of *Orchestral “Pops” Music: A Handbook* is the ideal tool for working conductors and orchestral librarians, as well as music program directors at colleges, conservatories, and orchestras.

REVIEW OF PAUL MURTHA

- The career you choose is chosen for you. When "The Giver", by Louis Lowry, is about a community that has no famine, violence, crime, prejudism, and diseases. In the community where a twelve-year-old boy named Jonas lives, family units are picked out, you have no thoughts, and when you have dreams, you get a pill to make them go away. Jonas wonders what career he'll get and if he'll get the same career as his friend Asher. I sort of liked and disliked this book because of how the people have their careers picked out for them and that when you have dreams, they're controlled by pills that make them go away. What I like about this book is that it's very calm and a very quiet place and you can't get hurt really bad. What I also disliked about this book is that your careers are chosen for you and the families are being

chosen. I recomend this book to everybody who likes to read non-fiction books and read very exciting books.

- I thoroughly enjoyed this novel, as it brought me happiness as well as grief within its visually colorful scriptures. Jonas, a boy of only twelve, discovers that he is destined to do more than what meets the naked eye, no pun intended. His community, known for its equality, or rather today this can be labeled as communism, assigns Jonas to work as the keeper of memories, where he is to deal with the pain and strife that the rest of the population does not deal with. This is supposedly done to ensure the happiness of his clan. Ever so slowly Jonas realizes that his life had been shielded from reality. Jonas had been lied to about what life was supposed to be like, and in this trap of bland grays, Jonas decided that he had to escape. I felt that Louis Lowery almost perfectly described this utopia in which Jonas resided. Everything was explained in utmost detail to give everyone the distinct view of life through Jonas's eyes. Lowery's use of allusion to the topic of Communism was also a powerful topic that I felt was delicately embedded within the text. Very craftily it was used to depict a community where everything was `provided and cared-for equally,' but not necessarily `perfect.' I would recommend this book to any age group. It is simple to read for any age, but what you get out of the book lies in how deeply you understand its levels. To a sixth grader, this could just be a story about following your heart, but to a junior in high school such as myself, this is a story about the need to escape from a world of depressing equality to a life of color and true love.
