REVIEW OF TAMILNADU 12TH MATHS SOLUTION BOOK

- This novel is a delicious mix of history and mystery, two of my favorite genres. Tey has turned one of the great unsolved mysteries of all time into an intriguing mystery novel. The murder involved is the disappearance of the two princes in the tower, and the suspect is Richard III. Did he do it? This is one of those unanswerable questions that intrigue the history buff as much as the historian. The question has never really been answered to anyone's satisfaction, except perhaps those historians who have written their version of the facts.Tey's protagonist finds himself captivated by the mystery, when he discovers that the face of Richard III does not strike him as that of a villain. As he explores the facts of the case that still remain after all of this time, he delves deeper and deeper into the intrigues and battles of that era, and into the personality of Richard III. I found myself

becoming captivated as well. It was a true page turner.

- This book by far is the best and most comprehensive text documenting the history and variety of figural lights that have been produced since Edison invented the electric light. Bob Iwamasa documents page after page of lamps based on actual photographs from his own personal collection and that of another highly regarded figural lamp collector, Cindy Chipps. It would be hard to believe that between these two great collectors, any

example of a known lamp has been left out of this monumental work. The book is mainly pictorial, with limited explanatory text. The price guide is helpful, although getting a bit dated since the original book was written several years ago. However, it is my understanding that supplemental pages for new figurals that have been since identified may be available from the author along with updated pricing guides. The book is printed in high quality color on glossy paper. The sheer variety of lamps documented in this text is simply amazing and well worth the price of the book to be able to see them all in one place.
