book, our educated staff is here to supply tailored recommendations.

REVIEW OF CHEMISTRY OF ESSENTIAL OILS MADE SIMPLE GOD

- Nita is a thirteen-year-old who just wants the local bully to leave her alone. She is tired of being chased and of being beaten up, and she is especially tired of having to explain to her family why she doesn't fight back. When she stumbles across a book called "So You Want to be a Wizard" in her public library, Nita is intrigued. She doesn't quite believe in wizardry, but she checks out the book and decides to give it a try. She will do anything to keep the bully from hurting her again, even cast a spell. Surprisingly

enough, the book seems real. Soon after she discovers it, Nita meets Kit, a boy about her age with some of the same problems. He's had a book on wizardry for awhile and she teams up with him to cast a spell to get their tormenters to leave them alone. But in the midst of the spell, something happens and a new creature appears in Kit and Nita's world. Now Kit and Nita are trapped in a situation that seems to be way over their heads. They must stick together and work with each other to set things right again. Will they, two novice wizards, be able to fight against a dark power? I liked Kit and Nita and the way they used their intelligence to get themselves out of bad situations. I also liked Nita's family, and I liked the way the world of magic was developed in this story. However, some

parts of this book were pretty draggy; there was a lot of description I wasn't very interested in reading and that weighed the book down.

- This is a thoroughly edited and explained version of Othello. The introduction and other additional writings are well-researched and well-written, and provide valuable background on the play and the way it has been performed and interpreted over the years. For the scholar, the notes are incredibly thorough, describing the way the poetry is scanned as well as the differing texts in the Quartos and Folios. More information than the casual reader would need, perhaps, but a definitive text for someone who wants research along with their reading.
