### **REVIEW OF EL ALMA DEL VAMPIRO**

- My 12 year old daughter is just completing Math 65. WOW!Although not produced with Special Learning students in mind, the incremental learning is ideal for slower learning or learning disabled students. My daughter has always struggled mightily with Math concepts. She has made tremendous strides using this program. New concepts are introduced slowly and previously learned concepts are reinforced at each lesson. Each lesson includes a practice, some mental math and problems. At the start it took an hour at school and up to an hour at home to complete the lesson. She now gets each lesson done in under an hour! (It is set up for one lesson a day). I highly recommend this book, and I'm looking forward to using the next books in the series.

- This book shares triumphs, as well as failures, in bringing about grassroots social change. It gives valuable incites into methods that work, as well as ones that don't. It is a historical document of the past 3-4 decades of "the people" bringing about change in society (or trying too). As a social change activist myself, it is very valuable tool!
