## REVIEW OF FREE GED MATH STUDY GUIDE

- Although I have enjoyed some of Tom Wolfe's early nonfiction work, Bonfire languished on my shelf, unread, for several years. For some reason, I had dry and boring in mind for this book, which turn out patently untrue. To the reader who expects a true picture of gritty life in a big city, or a real picture of relations between groups of people, as other reviewers have called this, look elsewhere! Bonfire is satire...it is exaggeration...it is a farce. Great truths, however, often lie in humor. Wolfe has created a world where the reader manages to despise just about every character. You may be at least indifferent to the cops, or Fitzgibbon, the assistant DA who still seems to have his head on straight, but these characters just provide enough temperance to remind you how you hate everyone else. Wolfe's use of the English language is something like Shakespeare meets tabloid journalist, and his verbiage never fails to trigger an emotion, or two, often laughter and anger or despair at the same time. I often found I could not put the book down, but unfortunately, it seemed at the moments of highest suspense, the wordiness begins to drag, slowing the pace to a crawl, when you'd most like to fly.

- The first thing that struck me, after reading a synopsis of Bonfire, is that its impetus is similar to the climax of The Great Gatsby. Given this connection, we can look at these two novels in the context in which they are written. The Great Gatsby is considered by some to be "the great American novel," trying to encapsulate a time in the country's history. Jay Gatsby creates a wealthy identity for himself, appearing out of nowhere to claim his love, Daisy. Vehicular manslaughter ends their love. Sherman McCoy, in contrast, is born wealthy. Vehicular manslaughter ends his fun, which I hesitate to call love. Lust is probably more appropriate. This is only the beginning of the novel, and we watch his entire downfall unfold. So the two main contrasting ideas are what Jay and Sherman's motivations are (love versus lust) and what the focus of their lives in the novels are (love versus downfall). These are important things to think about when reading these novels and considering what each author might be trying to say about the period they are writing in. I also want to comment briefly on a few reasons some readers really dislike this novel. First, none of the main characters are admirable. There is definitely no one to latch on to as a moral center. Don't read on in hope of finding someone, but do read on anyway. Second, the entire society we are viewing is corrupt. There is no way to place blame on any single person or group in the novel. Be careful while reading and I hope that at the end, you are satisfied that everyone is equally at fault. I don't think Wolfe intended for his novel to place blame.
