Behavior analysis, a rapidly growing profession, began with the use and application of conditioning and learning techniques to modify the behavior of children or adults presenting severe management problems, often because of developmental disabilities. Now behavior analysts work in a variety of settings, from clinics and schools to workplaces. Especially since their practice often involves aversive stimuli or

punishment, they confront many special ethical challenges. Recently, the Behavior Analysis Certification Board codified a set of ten fundamental ethical guidelines to be followed by all behavior analysts and understood by all students and trainees seeking certification. This book shows readers how to follow the BACB guidelines in action. The authors first describe core ethical principles and then explain each guideline in detail, in easily comprehensible, everyday language. Guidelines, an index to them, practice scenarios, and suggested further reading. Practitioners, instructors, supervisors, students, and trainees alike will welcome this invaluable new aid to professional development.

## **REVIEW OF STATISTICS BUSINESS ECONOMICS**

## **11TH EDITION SOLUTIONS**

- John J. Pullen, in his seminal work "The Twentieth Maine" describes Ellis Spear as a determined man with a dry sense of humor, the kind to "take the conservative view of men and events." Ellis Spear, a schoolteacher prior to the war, joined the 20th Maine Volunteer Infantry Regiment as a lieutenant in 1862. He would over the course of the Civil War rise to the commissioned rank of Colonel and the brevet rank of Brigadier General, a remarkable performance for a man with no prior military training. His duties with the 20th Maine would take him everywhere the Union Army of the Potomac

traveled from late 1862 through Appomattox in 1865. As a Major, Spear was often the day-to-day commander of the 20th after August 1863. The 20th Maine is rather more famous than most volunteer regiments, thanks to its heroic fight on Little Round Top on the second day of the Battle of Gettysburg, a stand dramatized by Jeff Shaara in the novel "Killer Angels" and in the movie "Gettysburg." Spear's recollection of that day varies in the details from the traditional account presented by Pullen but this probably says more about how confusing a battle can be, especially when recollected thirty or forty years later, than about any real contradiction in facts. "Recollections" actually has three parts: Spear's notes jotted down during the war itself; a first attempt at writing them up in narrative form around 1896, and a more finished attempt undertaken sometime after 1900. The post-1900 attempt is the most readable, and is presented first. It should be read in close conjunction with the end notes to understand the context in which Spear was writing. A comparison with the other versions provides an interesting lesson in historiography. Spear's recollections document the life of the regiment in camp and on campaign. He details the challenges posed by the weather, the terrain, the poor food,

the often indifferent leadership, and the Confederates themselves. Spear writes in a matter-of-fact manner, interspersed with the kind of understated dry humor well-known to those who have lived in Down East Maine. His story is a remarkable tribute to the toughness of Civil War volunteers, who soldiered under sometimes appallingly bad conditions with grumpy good humor and perseverance. Spear comes across in this narrative as a dedicated, common sense officer who conscientiously carries

out his duties. Spear's gift for observation captures, among other events, some excellent vignettes of the temporary truces established by opposing picket lines, the sometimes strange persistence of good manners in the midst of war, and the inherent brutality of combat. This book is highly recommended to students of the Civil War and to casual readers looking for a sense of the times.

- Excellent and very good read. Luv Kay Scarlett. Have enjoyed several Patricia Cromwell books in the past. Very good writer
