publication reviews, and checking out suggestions. You can also follow us on social networks to stay updated with our latest offerings.

So what are you awaiting? Begin discovering Saltamontes Va Da Viage summaries today and discover your following wonderful read!

REVIEW OF SALTAMONTES VA DA VIAGE

- I was about 16 when I read this book and I truly enjoyed it. I have read books by Tolken, Jordan, and other fantasy writers and I have to place this book towards the top of my list. It is very well written, giving you the chance to experience every environment, allowing you to feel the scales on Eragon's back,

causing you to feel the emotions that the main character is going through. Rarely is such a wonderful job done in taking a character from a young child to a young man. Most of the time that process is filled with angst and drama and in general, the author attempting to explain a process that they don't understand. Paolini does a great job giving you those emotions without giving into the general cliché of an angst ridden teenager. I enjoyed this book because it does a wonderful job of pulling in the reader. It has enough characters to give it a juicy social life without causing the reader to become bogged down in a

thousand different back stories and a hundred different webs of lies and deceit. I would recommend this book to most people because I have had experience reading fantasy and this is a very good book. It will be interesting to see if Paolini can keep his next book as interesting, but since he is such a young writer, still developing his style and his craft, I have a feeling he will meet the challenge, just as he has done with this book.

- This is an awesome book. It keeps you reading & you do not want to put it down!!
