REVIEW OF CLARK C300 40 FORKLIFT

- This is a great book for someone who has never been aware of their spiritual nature through out a divorce. I found it redundant and a bit boring a slow read. I read alot of Deepak Chopra books. i got the impression she was trying to mimic his style - not possible. I then learned that she was a student of his. It may

resonate with you I hope that it does. Best of luck to you in your transition to a good life.

- I guess everyone has his/her own taste, but I don't understand anyone giving this book a negative review! It was a fast, fun read with witty dialogue and major heat between the two main characters. I found it to be innovative and touching. I contacted the author to tell her how much I've enjoyed her writing and was delighted to receive a quick response. She was very pleasant and funny and gracious. Keep 'em coming, Susan!
