### REVIEW OF SOCIAL PSYCHOLOGY 8TH EDITION BY KASSIN

- An awesome history lesson, especially for those who have forgotten what it takes to defeat evil in the world. I hesitantly started reading this book expecting some blowhard general to gloat about his limited accomplishments in the big war. I had a very pleasant surprise and was drawn into another perspective of what we did as a nation to defeat Hitler and his cronies. The title is taken from a line in the Cadet's Prayer from West Point. It is a prayer we all could use to recite occasionally. I very highly recommend this book.
- Donald Bennett served for several decades with the US army, retiring as a Four Star General. This book briefly covers his youth during The Depression, his entry and various trials at West Point but the bulk is on his service as a battery and then battalion commander of M-7 Priests in WW2. Bennett sees combat in Tunisia, Sicily and North East Europe, including a second wave arrival on Omaha Beach. Bennett had a better run than many during the 1930s culminating in acceptance to West Point. There is lots of interest here. There is remarkable insight into the sort of men the era and the Point produced. Bennett for instance took it very seriously and virtually adopted the Cadet Creed as

his instructions for life. He was also increasingly aware of the changing world situation and his likely future in it. After graduation Bennett is assigned to artillery and has the bizarre experience, in the age of Blitzkrieg, to command a horse drawn unit. It is fascinating to read his thoughts on this and his concerns for how the US could possibly defeat mechanized enemies. Fortunately he is posted to the 58th Mobile Armored Artillery, the first unit to receive the M-7 and is thrilled with the possibilities this weapon offered. His thoughts on how mobile artillery should operate are fascinating, showing his keen insight. He is able to put his theories to the test when he receives command of the 62nd Armored Artillery for Normandy. Bennett is in combat a lot. In Tunisia he is shelled and attacked often by the Luftwaffe. He sees how professional the Germans are and sets out to improve his units accordingly. There follows the Sicilian campaign where he finds himself in the neighbouring tent when Patton slaps that soldier. Bennett writes Patton was cheered as he left! This occurred also when Patton fronted units to issue his apology. He is quite a fan of the Patton way of war. Indeed it is one of his themes that when at war, nations need to be ready to fight with determination. He laments the state of the US national spirit today but this is no long whine about 'it was better in my day', just an old soldier's considered observations. The combat highlight is Bennett's participation on D-day. He goes in with the second wave, in order to better control his vehicles but is confronted by absolute chaos. He finds himself directing infantry and it is a dramatic chapter indeed. He also has a pivotal role in holding a shoulder of the Bulge. While his role saw him directing fire rather than firing a gun himself, he does encounter German ground troops and is in some very dangerous situations. He touches on some of the awful aspects of battle but his role means his experiences are generally different to those of the infantry. Bennett is a good writer. He does his best to convey in modern terms how the events of the 40s hit home and he has some pertinent things to say about his countries ignorance, then and now. (Indeed, in some ways the events of Sept 11 may have prompted him to write.) I found this book to be absorbing. Bennett's fresh, clear thinking on how to use the weapons at his disposal is also evident in how he has conveyed his thoughts to the reader. He has some stirring things to say about America and Democracy and what is needed when confronted by evil. Highly recommended.
