Words National Academies Press

When Bloomberg journalist Mark Pittman suddenly died, his widow spent four summers driving 31,152 miles searching for answers. In her fearless memoir, *The Pink Steering Wheel Chronicles: A Love Story*, author Laura Fahrenthold presents a moving portrait of marriage, motherhood and mourning as she captains a 1993 RV sprinkling her husband's ashes with their two young daughters and a stray dog in an epic quest for healing and understanding. Filled with insight and wit from a career in journalism, the story captures the family's adventures and misadventures, her deeply-layered love story, and her hilarious slice-of-life dispatches where the pink steering wheel becomes her spiritual GPS.

PCAT Karger Medical and Scientific Publishers

“A robustly researched and smoothly written overview of the many challenges confronting our devotion to fossil fuels” from the author of *Tar Sands* (Quill & Quire). Ancient civilizations relied on shackled human muscle. It took the energy of slaves to plant crops, clothe emperors, and build cities. Nineteenth-century slaveholders viewed critics as hostilely as oil companies and governments now regard environmentalists. Yet the abolition movement had an invisible ally: coal and oil. As the world’s most versatile workers, fossil fuels replenished slavery’s ranks with combustion engines and other labor-saving tools. Since then, cheap oil has transformed politics, economics, science, agriculture, and even our concept of happiness. Many North Americans today live as extravagantly as Caribbean plantation owners. We feel entitled to surplus energy and rationalize inequality, even barbarity, to get it. But endless growth is an illusion. In this provocative book, Andrew Nikiforuk, winner of the Rachel Carson Environment Book Award, argues that what we need is a radical emancipation movement that ends our master-and-slave approach to energy. We must learn to use energy on a moral, just, and truly human scale. Published in Partnership with the David Suzuki Institute “In his cautionary tale about the

evils of oil . . . Nikiforuk makes his case for impending doom if we don't mend our energy-spending ways." —The Star "In this cogently argued book, Andrew Nikiforuk deploys a powerful metaphor. Oil dependency, he writes, is a modern form of slavery—and it's time for a global abolition movement." —Taras Grescoe, author of *Shanghai Grand* "A startling critique that should rouse us from our pipe dream of endless plenty." —Ronald Wright, author of *On Fiji Islands*

Acute coronary syndrome (ACS) continues to challenge our health care system in the complexity of presentation and the ever increasing number of patients exhibiting signs and symptoms of an acute coronary syndrome. Written by leading experts, *Short Stay Management of Chest Pain* provides scientific and clinical insights on the management of patients who arrive at the hospital with a presentation consistent with a potential acute coronary syndrome. Focusing on the cardiology aspects of chest pain, *Short Stay Management of Chest Pain* is a valuable tool for acute care physicians, nurses, and hospital administrators devoted to caring for this population. *Short Stay Management of Chest Pain* details the remarkable improvements in diagnostic accuracy and improved patient outcomes for patients presenting with suspected acute coronary syndromes.

The Official Guide to the TOEFL iBT with CD-ROM, Third Edition Zondervan

This volume examines existing research documenting racial disproportionality and disparities in child welfare systems, the underlying factors that contribute to these phenomena and the harms that

result at both the individual and community levels. It reviews multiple forms of interventions designed to prevent and reduce disproportionality, particularly in states and jurisdictions that have seen meaningful change. With contributions from authorities and leaders in the field, this volume serves as the authoritative volume on the complex issue of child maltreatment and child welfare. It offers a central source of information for students and practitioners who are seeking understanding on how structural and institutional racism can be addressed in public systems.

Beginner to Advanced: Complete Edition
 McGraw Hill Professional

The United States Social Security Administration (SSA) administers two disability programs: Social Security Disability Insurance (SSDI), for disabled individuals, and their dependent family members, who have worked and contributed to the Social Security trust funds, and Supplemental Security Income (SSI), which is a means-tested program based on income and financial assets for adults aged 65 years or older and disabled adults and children. Both programs require that claimants have a disability and meet specific medical criteria in order to qualify for benefits. SSA establishes the presence of a medically-determined impairment in individuals with mental disorders other than intellectual disability through the use of standard diagnostic criteria, which include symptoms and signs. These impairments are established largely on reports of signs and symptoms of impairment and functional limitation. *Psychological Testing in the Service of Disability Determination* considers the use of psychological tests in evaluating

disability claims submitted to the SSA. This report critically reviews selected psychological tests, including symptom validity tests, that could contribute to SSA disability determinations. The report discusses the possible uses of such tests and their contribution to disability determinations. Psychological Testing in the Service of Disability Determination discusses testing norms, qualifications for administration of tests, administration of tests, and reporting results. The recommendations of this report will help SSA improve the consistency and accuracy of disability determination in certain cases.

This book provides the first comprehensive overview of a new scientific discipline termed Geroscience. Geroscience examines the molecular and cellular mechanisms that might explain why aging is the main risk factor for most chronic diseases affecting the elderly population. Over the past few decades, researchers have made

impressive progress in understanding the genetics, biology and physiology of aging. This book presents vital research that can help readers to better understand how aging is a critical malleable risk factor in most chronic diseases, which, in turn, could lead to interventions that can help increase a healthy lifespan, or 'healthspan.' The book begins with an analysis of the Geroscience hypothesis, as well as the epidemiological underpinnings that define aging as a candidate main risk factor for most chronic diseases. Next, each chapter focuses on one particular disease, or group of diseases, with an emphasis on how basic molecular and cellular biology might explain why aging is a major risk factor for it. Coverage in the book includes: cancer, cardiovascular disease, dementias, stroke, Parkinson's and Alzheimer's diseases, osteoporosis, arthritis, diabetes asthma, emphysema, kidney disease, vision impairment, and AIDS/HIV. It finishes with a chapter on pain in the elderly and an overview of future steps needed to bring the newly acquired knowledge into the clinic and the public at large.

A Love Story McGraw-hill

While not all natural disasters can be avoided, their impact on a population can be mitigated through effective planning and preparedness. These are the lessons to be learned from Japan's own megadisaster: the Great East Japan Earthquake of 2011, the first disaster ever recorded that included an earthquake, a tsunami, a nuclear power plant accident, a power supply failure, and a large-scale disruption of supply chains. It is a sad fact that poor communities are often hardest hit and take the longest to recover from

disaster. Disaster risk management (DRM) should therefore be taken into account as a major development challenge, and countries must shift from a tradition of response to a culture of prevention and resilience. Learning from *Megadisasters: Lessons from the Great East Japan Earthquake* consolidates a set of 36 Knowledge Notes, research results of a joint study undertaken by the Government of Japan and the World Bank. These notes highlight key lessons learned in seven DRM thematic clusters—structural measures; nonstructural measures; emergency response; reconstruction planning; hazard and risk information and decision making; the economics of disaster risk, risk management, and risk financing; and recovery and relocation. Aimed at sharing Japanese cutting-edge knowledge with practitioners and decision makers, this book provides valuable guidance to other disaster-prone countries for mainstreaming DRM in their development policies and weathering their own natural disasters.

The Newbery Honor Book and New York Times Bestseller that is historical fiction with a hint of mystery about living at Alcatraz not as a prisoner, but as a kid meeting some of the most famous criminals in our history. *Al Capone Does My Shirts* has become an instant classic for all kids to read! Today I moved to Alcatraz, a twelve-acre rock covered with cement, topped with bird turd and surrounded by water. I'm not the only kid who lives here. There are twenty-three other kids who live on the island because their dads work as guards or cooks or doctors or electricians for the

prison, like my dad does. And then there are a ton of murderers, rapists, hit men, con men, stickup men, embezzlers, connivers, burglars, kidnappers and maybe even an innocent man or two, though I doubt it. The convicts we have are the kind other prisons don't want. I never knew prisons could be picky, but I guess they can. You get to Alcatraz by being the worst of the worst. Unless you're me. I came here because my mother said I had to. A Newbery Honor Book A New York Times Bestseller A People magazine "Best kid's Book" An ALA Book for Young Adults An ALA Notable Book A School Library Journal Best Book of the Year A Krikus Reviews Editor's Choice A San Francisco Chronicle Best Book of the Year A Publishers Weekly Best Book of the Year A Parents' Choice Silver Honor Book A New York Public Library "100 Titles for Reading and Sharing" Selection A New York Public Library Best Book for the Teen Age *"Choldenko's pacing is exquisite. . . . Empower students to be the change—join the teaching mathematics

for social justice movement! We live in an era in which students have —through various media and their lived experiences— a more visceral experience of social, economic, and environmental injustices. However, when people think of social justice, mathematics is rarely the first thing that comes to mind. Through model lessons developed by over 30 diverse contributors, this book brings seemingly abstract high school mathematics content to life by connecting it to the issues students see and want to change in the world. Along with expert guidance from the lead authors, the lessons in this book explain how to teach mathematics for self- and community-empowerment. It walks teachers step-by-step through the process of using mathematics—across all high school content domains—as a tool to explore, understand, and respond to issues of social injustice including: environmental injustice; wealth inequality; food insecurity; and gender, LGBTQ, and racial discrimination. This book features: Content cross-referenced by mathematical concept and social issues Downloadable instructional materials for student use User-friendly and logical interior design for daily use Guidance for designing and implementing social justice lessons driven by your own students' unique passions and challenges Timelier than ever, teaching mathematics through the lens of social justice will connect content to students' daily lives, fortify their mathematical understanding, and expose them to issues that will make them responsive citizens and leaders in the future.

REVIEW OF COLLINS PCAT 2013 STUDY GUIDE ESSAY

- This book takes a personal look at Mariko, who is a wife, mother, and daughter in modern-day Japan. This book cuts through typical Japan-bashing rhetoric, and provides an intimate look at Japanese family life during a time when familial roles are being challenged and re-defined almost daily. This behind-the-scenes view of family life is one that few non-Japanese get to experience. I particularly enjoyed how the book illustrated the rhythm of Mariko's daily life over a year's time. The book shows how Japanese women have much more

freedom of expression and independence than men which is quite contrary to what most westerners believe.

- The sacred and the profane. Faith and eroticism. Earth-drying sunlight and earth-rending flood. Night and day. Heaven and Hell ... could any of them exist without their opposite? In her new novel, "The Last Report on the Miracles at Little No Horse," Louise Erdrich weaves the intricate and the uncomplicated into a story that is, by turns, extraordinarily tangled and beautifully concrete. Opposites dependent upon one another. Maybe it's because Erdrich writes in sacred circles. Families, generations, places, events and individual characters swirl among her various novels. The Turtle Mountain-Pembina Reservation, which sprawls across the Red River halfway into North Dakota -- the setting for "Love Medicine," "Tales of Burning Love" and other Erdrich tales -- is again the crucible where Erdrich re-mixes the lives of the Nanapush, Kashpaw, Morrissey, Mauser, Pillager, Lamartine and Lazarre families. In her work, you'll recognize Faulknerian rhythms: a northern plains Yoknapatawpha where the Sartorises, Snopeses and Compsons are known by Ojibwe names, where voices shift like sand. In circles where the literary air is more rarefied, Erdrich's juxtaposition of disparate concepts might be called *Manichean* -- relating to an ancient spiritual belief that life is governed by an endless battle between equally potent forces of good and evil, neither of which can ever annihilate the other. That's one way to look at it. But while her writing invites a number of interpretive methods and philosophies, it is Spartan and simply human, more Cather than

Faulkner. In environs where landscape is less influential to life, readers might see only Manichean metaphors in rivers, forests and blizzards; in the West, it's just the way things are -- starkly contrasted depending on the time of day, the angle of sight, or the weather. The place that is good by day might be evil by dark. It is not just the stuff of Erdrich's writing, but her life, too. The pivotal event in "The Last Report" is a Dakota flood that not only sweeps Agnes away on the lid of a piano, but also represents her spiritual evolution -- her ordination, if you will -- into Father Damien. A heaven-sent event, delivered

by the Muse of Metaphor into the fervid imagination of a writer in need of a symbol? In fact, it is a scene inspired by the 1997 flood on North Dakota's Red River. It is certainly an apt spiritual metaphor, but it is also a simple account of how fortunes are so swift to change in the Western landscape. Pick your poison, dear reader: Mysticism or reality. They both work. The part-Ojibwe Erdrich, like indigenous writers Sherman Alexie and Leslie Marmon Silko, deftly blends mysticism and dark humor in a complex, compassionate amalgam that, when burnished, not only reflects the Indian experience, but human existence in any color, at any moment in time.
