## **REVIEW OF JOHN QUINCY ADAMS YANKEE NATIONALIST**

- Ray Bradbury's "Fahrenheit 451" has some very interesting ideas, but they get bungled in the execution. The book was written in the 1950's and takes place in the unspecified future. Books are now illegal and no one learns to read more than is absolutely necessary. The world is in a constant state of war, but drugs and mindless T.V. programs keep most people pacified. The main character, Guy Montag, is a fireman. But firemen no

longer put out fires; they start them to burn books and the houses that harbor them. (Because there is no written history, very few people are aware that this was not always so.) Montag meets an intriguing teenage neighbor, Clarice, who challenges him to think and not conform to society. This leads him to reexamine his life, and his relationship with his dull and placid wife. Montag is also troubled by a conversation with an old man about a year earlier. Though he was sure this man was harboring books, he never turned him in. Finally, Montag steals one of the books he is supposed to burn. He dreams of collecting books and sharing them with everyone willing to listen. What's good in this book are the theoretical ideas: the sheer horror of the society being depicted (it's like a less

complex "Brave New World"), and the image of thousands of people memorizing books so they can keep the words alive. Here we see that books are not paper and ink, but living words that start with one person but can touch everybody. This is what makes them so potentially dangerous. Although the book is very involving, and reads quickly, I was dissatisfied with some aspects of the plot. Montag's conversion was much too quick. If that was all it took, why weren't there millions of others like him? He doesn't come across as an unusually bright man. Also, I think the ending of the book is rushed. A minor complaint: The 50th anniversary Ballantine edition is riddled with typos, which should be unacceptable in a commemorative volume.

- I definitely give Ray Bradbury's Fahrenheit 451 5 stars. In this story Ray Bradbury portrays censorship in a way that only some one who thinks outside the box can. In this alternate future firemen are paid to burn books. Guy Montag is a fireman that is undecided. Every other fireman thinks only of the great blaze and wicked joy that comes from burning books. But Guy is the only one undecided. When he sets books ablaze he wonders whether this is right. One night while he was walking home from the latest book raid the awful stench of kerosene still in his hair he meets a strange girl who makes him think. What if books were not meant to burn? This question as he knew could endanger him and his wife. So he decided that he would forget about the

queer girl. He soon found that it was nigh impossible to forget her. But the next day he was called in for another book raid. This time during the raid he thought about the girl and her strange thought of him saving a book for her. As Guy and his fellow firemen sprayed on the gallons upon gallons of kerosene on the books he saw a sentence of a book he would always remember. He had only

a second to think about the sentence because someone reminded him to set the blaze with his salamander engraved lighter. After that he saw one helpless book try to escape the blaze. Like a bird's final push the book went up and down. Through out the book Guy Montag constantly battles with himself what is right and what is wrong.
