REVIEW OF NARCISSUS AND GOLDMUND HERMANN HESSE

- I read this book the first time as an adult (late 20's). I remember it was a popular summer reading book back when I was in school. Everyone I know who has read it said it was good, so I figured I'd give it a shot. From the very first chapter, it had a spooky, ominous feel to it. It was a bit confusing during the first chapter, because it's set in a different world, and even a futuristic setting. The author quickly explains everything you need to know to understand this new world, but it doesn't make it any less strange. It reminded me a lot of "1984" to give you an idea. The last 10 chapters or so I was not able to pull myself away. It was a good read, don't get me wrong, but it was more of a morbid fascination that kept me glued to it. I could not believe what I was reading. It's horrifying not only to reading about the kind of world that was presented in the book, but to see aspects of it in the real world. It leaves you thinking (just as "1984" did): "Wow, this could actually happen someday if we continued down this path". It left me feeling very unsettled after I finished reading the book, and that feeling continued with me until the next day. People I've talked to that read it in high school told me that the book always stays with you like that. Not to mention, I finished it right before going to sleep that night, so I was left with some pretty odd dreams and an overall restless night. When I first finished, I disliked the ending, but after sitting with it on my mind for awhile, I have a better understanding of why she chose to end it that way. I remember this

book being on my 5th grade reading list, but I feel some of the themes are a bit mature for someone that young. I'd say it was better for 15 and older. It just contained too many mature situations, death of a baby, for one. And the author was pretty descriptive. It was a book that I equally loved and hated. I loved the writing style, and the overall idea. It was a quick read, with no slow points to speak of. Her descriptions were amazing - very detailed. As the reader, you could really picture what she was describing. The characters that needed to be 3-D were, and there were some that needed to be less developed, and it went along with the premise of the story. I also hated the world she created because it scared me so much and it was just horrible. I recommend that everyone

should read this book. It serves as a warning of what may become ("sameness", etc) if we continue on the same path. Don't let the "young adult" label stop you from reading it, it's a must-read for adults too.

- although i like reading, i rarely find books that i can really get into. i loved the catcher in the rye, and some other books, but i really loved the harry potter books. i read each one of the harry potters in 1 day. but the giver was right up there with harry potter. i couldn't put it down, and although some people have said bad things about the ending, i thought it had a GREAT ending! it really made you think, whether it was in a good way or a bad way. i would definitely recommend this book!
