REVIEW OF GRADE 11 MATHEMATICAL LITERACY MEMORANDUM PAPER 1

- The book arrived on time but it was a

little more beat up than I anticipated. Definitely still readable but the cover was a little messed up.

- Now, remember that I'm not a person to step down from any fantasy, but this book basically stunk! (really bad!) I'm glad that somebody else realized how this is basically an imitation of the Lord of the Rings and other famous fantasies. All of my friends love Eragon but haven't read The LOTRS or any other famous works. I was forced to read this by a "friend" that loved it. I thought it was "OK", but when I started the second book, I put it down after 5 chapters or so. The author basically copied lines

from the LOTRS. Isn't that illegal!? I threw that book at my friend. I'm afraid to see the movie because it could be a remake of the LOTRs movie. The author is making money off of ideas that the great authors of past worked so hard to accomplish. I think I'll check back to this author in maybe 60 years when he's learned how to create his own ideas. (And it's not only because he was 17 when he wrote it, I've read books by 13yr olds that were published that are better than this. Like in the Forests of the Night and Demon in My View.) He only got this book published because his parents were publishers.
