• I gave this book to

my 13 year old son for Christmas. We have read every single page. He uses it as a reference book when talking to others about Marvel comics. He has completely enjoyed this book. I find the book highly entertaining because it reads like everything in it is true.

• This is a very useful checklist/reference for anybody interested in flora in Myanmar. It also includes several photos of plants in the country, including some beautiful gingers. For more about Dr. Kress' work in Myanmar, as well as the backstory to this checklist, see *The Weeping Goldsmith*.
