REVIEW OF ARSENE WENGER AUTOBIOGRAPHY

- I bought this book b/c of its interesting title. I've learned a lot of things from my men's behavior since I've read this book. I think this book works good for women who are dating and trying to understand their lover.
- This book is excellent for men and women alike. It was very well written, witty, and kept me on the edge of my seat with the reality of the different situations. Many of us at one time or another can relate to some of these stories. It gives some people an opportunity to figure out where they have gone "wrong," and others to understand why they indeed flee. Excellent!!!
