REVIEW OF ACCOUNTING TOOLS KIMMEL 5TH EDITION SOLUTIONS MANUAL

• The flying life of WWII fighter pilot Greg Boyington, who flew against the Japanese with the Flying Tigers immediately prior to WWII and then again with the Marines until being shot down in 1944 and becoming a POW. Greg "Pappy" Boyington's career as a Marine aviator was pretty much over before America even entered WWII. At that point, the fighting was being carried on, supposedly, by the Europeans and the Chinese. When numerous pilots were being asked to join the famous "Flying Tigers" - a Chinese AF unit actually run by Americans and flying American fighters - Boyington jumped at the chance. With his career going nowhere, and his marriage also over, the prospect of going to China to fly against the Chinese offered him a chance of redemption, to put his career on hold until he could get back from China with a record strong enough to rejuvenate his career. Instead, frequent clashes with the head of the Tigers - Claire Chennault - led to Boyington's quick removal from that unit. Leaving China, where condescending Yankees are sowing the seeds of hostility which the Chinese will harvest in 1949, Boyington finds he can't get back to flight duty. The Marines, from which Boyington resigned in order to join the Tigers, at first can find no record of Boyington's arrangement to rejoin the Marines at Major's rank. Despite this, and also despite Chennault's insistence to Boyington's superiors that Boyington be reinstated to the Marines and given a desk job, Boyington returns to the Pacific in time to fly F-4U Corsairs against the Japanese

for the Marines. Patching together a squadron out of misfit flyers, Boyington leads his men against the Japanese in a theater that isn't getting the most attention from Washington. Everything seems second hand about Boyington's unit, already deemed unusable by others. This was especially true of their planes. Though the Corsair was powerful, it had racked up a poor safety record among Navy carrier units unused to it. Nicknames like "Widowmaker", "Bent-Wing Eliminator" and "Whispering Death" hint at a lethality directed at Corsair pilots almost as much as at the Japanese. Shot down by the end of 1944, Boyington endures nightmarish deprivation as a POW. Nevertheless, there isn't a bitter bone against the Japanese to be found anywhere. Returning to America with the war's end, Boyington slides deeper into alcoholism and failure. The most enduring image for me is that of the scarred warrior as a ref in wrestling matches, a long way from the glory he should have realized from his iron determination in the air. Boyington's honesty seems striking - he reserves virtually all of the blame for himself. "Show me a hero", he says "and I'll show you a bum."

• The first time that I read this book, I could hardly put it down. It is truly captivating. The emphasis on finding purpose and meaning sparks something within. It makes you want to look for more in life, putting things into perspective. For example, he describes the need to find meaning in life in each moment, highlighting the need to live in the moment. Although the story describes how Frankl's survived concentration camps, he focuses upon aspects of human nature, man's ability to persevere, and other parts of the

human experience. This allows anyone to relate to such an extraordinary story. I highly recommend it.
