REVIEW OF FITNESS OLTRE LO SPECCHIO

- A little about me: I never take anything I read as gospel. I am not a "pagan" and I do not identify myself with any particular path. I'm a wandering mystic. I just kind of read everything and take what rings truth in me and assimilate it into my personal belief structure. This book fills a very real need in mystical literature for people like me. I am the sort of person who generally prefers cities over the country (although I do enjoy returning to nature occasionally) and so it is hard for me to connect with very nature oriented pagan literature. When you spend most of your days walking around a city, full of concrete, alley ways, faces, and buildings you don't often run into a babbling brook, or a natural clearing of trees, or a patch of clover. It's just a different world and Raven Kaldera expertly shows that spirituality can be found anywhere, even in a dirty alleyway when Skram whispers in

your ear and you notice a shadowy figure a ways away and suddenly feel you should be elsewhere. Why can't cockroaches and squirrels and pigeons be totem animals? Some of my friends respect this book merely due to how perfectly his description of the squirrel totem person fits me. LOL This is not for the average tree-hugging dirt worshiping hippie nature child pagan. This is for those of us who just march to the beat of our own drummer and find spirituality EVERYWHERE we go, not just in the places you'd expect to find it. Give this book a chance. Seriously. This guy has some fantastic ideas even if you don't adopt his beliefs in rote.

- While not the best Night World book, it's certainly a good read. Thea and Eric were almost too goody-goody as main characters for my taste, but they were still fun to read about. I thought Blaise was one of the most interesting characters, with so many layers it's hard to really figure her out. The author did a wonderful job creating characters you could care about.
