- Karen Blue's wonderfully inspirational book "Midlife Mavericks" came at the perfect time in my life. The women interviewed are brave, resourceful and independent. If you have a drop of wonderlust left in your heart, these women will ignite the desire for freedom and adventure. Ms. Blue

even gives out her email address! I have contacted her and she has been very helpful!! What a great find, book and woman both!!

- In spite of all the great reviews prior to this one, this book is not a complete guide to float hunting Alaska. I give the author credit for doing a lot of research and the book provides an incomplete but valuable list of phone numbers and some nice pictures. Other than that it reads like college term paper. It has a lot of words but not enough depth to plan much of anything. The maps are straight out of the hunting orders and no specifics are given on any river. There are inaccuracies throughout the book. For example, in the wildlife biology section

it states mineral licks for sheep contain protein (p 97) and that sodium and magnesium are organic compounds, a different chemistry than what I learned. Some of the conclusions in the discussion of firearms and ballistics are irrational like including the 7mm(7x57?)and .308 in the list of calibers as good choices for moose and bears (brown and/or black it doesn't specify?). Besides, I hate to see sporting firearms referred to as weapons, we have enough problems with the media and anti-gun groups. If you are a novice hunter and didn't know much about the outdoors, you will find useful information. Beyond that it covers everything from

changing your socks to minimum impact camping.

Unfortunately, none of it in enough detail to be of real benefit to any but the inexperienced. It would have been better to write a book on float hunting and concentrate on the

basics in depth instead of trying to create the complete guide to everything in 205 short pages and missing the mark the title implies. Go to the AK Fish and Game web site and get a good floating Alaska rivers book, you will be ahead.
