## **REVIEW OF THE BOY IN STRIPED PAJAMAS TEACHING GUIDE**

- As with the companion tab book, 'The Best of 1990-2000' (ISBN: 0634086391) this book contains some of the very best U2 songs for

Guitar players to feast upon. The 80's was arguably when U2 really broke ground in terms of defining their sound with War and the Joshua Tree, and again in 1991 with Achtung Baby (songs from which are not in this volume, but the companion). One must be careful, however, to purchase the right version of the book as Amazon does not really make a clear distinction between the Piano/Vocal/Guitar version (ISBN: 0634086375 - only has VERY limited guitar tab, essentially chords really, therefore is of not much use to the serious player) and the Guitar-only version (ISBN: 0711973091), which has comprehensive tab to nail these songs. You'll find all of the notable

classics like 'With or Without You', 'Where the streets have no name', 'I will follow', 'Pride', 'The unforgettable fire', 'All I want is you' and so on all accurately tabbed in this volume, and before you know it you will be rattling off the riff for Pride and think you will be a guest on tour with the boys from Dublin. Grab this and the Best of 1990-2000 book (ISBN: 0634086391, Guitar-only version) and you will have a collection of some of the most seminal songs of the mid eighties and nineties. Trust me, they work a treat if you have a gig/party at a mate's place...the crowd will love them, and they are a pleasure to play. Do yourself a favor, and don't bother with half

of the tabs on the Internet for U2 songs. Most are wrong or incomplete, and since this tab book is \$15 (a little more for me since I'm an Aussie, but still very cheap) you will have all you need and no need to bother with renditions by 14 year olds that think they are Eddie Van Halen or The Edge. One last thing: there is no indication of what effects you need to use to get the 'sound' of the Edge. I can tell you that it is primarily a Delay effect, but some excellent Internet 'Edge-wannabe' resources (try Google) will tell you the specifics for each song. U2 Purists looking for 'An Cat Dubh', 'The Electric Co.' (which is great) and some of their other REALLY early stuff ought to

look elsewhere too, as this is simply a collection of their (many) hits of the 80's and nothing too left-of-field.

- I have been interested in the ethical issues surrounding animals in society for some time, but have only recently taken the step of becoming actively involved in the welfare of animals. I thought this book would provide a comprehensive introduction to activism. I found much

of it to be highly abstract to the point of being incomprehensible. The "ideal" that seems to be sought is certainly well-detailed, but to me it seemed to be so far away from what is "practical" that I finally gave up. I guess I'm more interested in getting my hands dirty and really doing something to lessen the suffering of animals than just thinking about doing so and constructing convoluted philosophies that will never be implemented.
