REVIEW OF AP BIOLOGY READING GUIDE ANSWERS CHAPTER 4

- I had been watching this movie over and over for years, ever since it came out, and finally noticed the book here on Amazon. I was so excited! It has always been my favorite story, and now I treasure the book in my home. Truly an amazing story, you never need to know their names, as the characters they portray speak for themselves. The style in which it is written is just beautiful to me, and I love reading the book over and over just as I enjoyed watching the movie. I still cry at the end.
- A great trip through history. I hated to see this wonderful bio end. At times the details were a little more info than I needed but

always fascinating. Highly recommended.
