REVIEW OF T 37 MANUALS

- April Morning was a good book, with maybe a bit too much detail. But it accurately depicts the Battle of Lexington and Concord. I enjoyed it, although most people might not want to read it for entertainment. I had to read it for my eighth grade language class. This book was pretty good, and it was spiced up with a little bit of romance and the struggle of going to manhood.

- This is "Chicken Little gets a job as a financial advisor." Lots of what-if, what-if, what-if...but no answers beyond save more money and reduce your expenses in retirement. This book takes you on a never ending quest to find the number...but the only consistent message is that no matter how much you manage to save or think you need...it will not be enough.In the last paragraph Eisenberg says "Better to invest this valuable energy, and use that time, to come to terms with who you are, or, if it better pleases you, to make more money." I suggest you take his advice. If you've read more than 3 or 4 of these reviews then you have already wasted too much time on this book.Why doesn't Amazon have a "zero star" option?
