REVIEW OF ANNA UNIVERSITY ADC LAB MANUAL 3RD SEM

- A Pace of Grace is a book to keep by your side, not one to put aside. It is a book I will read over and over again and have purchased many copies for my friends. The author's real life anacdotes make it a very readable book. At the end of each chapter she highlights the main points and introduces the reader to what is coming next. This helps to build anticipation. The author offers manageable solutions to universal frustrations with daily living. After reading each chapter I was

energized and motivated to make some needed changes in my life. I am very grateful to have this inspirational resourse and love sharing it with others.

- I've been interested in the persuasive aspects of technology and design since I was in 4th grade, and online since 1983. While the title is "persuasive technology", the discussion is broader than many of us often think about technology. Professor Fogg lays out a clear framework for considering how the products we use influence us, and how to design products which are more persuasive. I'm currently working with a number of organizations improving the process of civic engagement, and find myself frequently referring to concepts from the book. The book has become an indispensable tool. Thank you Professor Fogg.
