REVIEW OF S4H400 SAP

• Alright, let me set a few things straight from the get-go: I am neither a Grisham basher, nor do I like to go out, buy, and read his books just to make awful commentaries about them and post them on Amazon.com (in fact, I go to the library). But, I have read over half-dozen Grisham novels, and something must be said about this stinker.To start with, (SPOILERS AHEAD!!!) the title of the novel should have been potentially something like this: "The Last Juror, with 2/3 of the Novel a Waste." Or, I like this one more: "The Last Juror: Find out what it all meant by reading the last 20 pages."The plot, while seemingly okay, concerns a jury who hears a case of a rich boy who raped a single mother--along with other horrible things that added to his guilt, and of course, the decision of the jury (and the reader). After sentencing him to life, the rapist gets pretty mad, and threatens to kill (or wait, to 'take revenge') on all the members of the jury who put him in his place--and he does, albeit much, much later. Pretty unique plot line, no? Certainly it's Grisham's best yet? NO. It seems a bit strained, boring, and, uh oh, like I've heard it before? Like in a distant movie? In any case, I don't remember, and the idea of a prisoner getting out of jail and taking revenge on the jury who put him behind bars was something I couldn't resist--so I picked it up.Now, bear in mind that all of this plot is displayed quite outrightly on the hardcover's inside jacket description. So, it's pretty much old news; that is, the whole novel has just been blown by the little vindette on the cover. Oops.The first 50 pages concerns the main character, some Billy of sorts (his real name isn't important, and his development in the story is pretty lackluster, like most of the characters in the novel, except for Lucien, the crazy lawyer who represents the rapist), and his presence observing a trial of the rapist. Billy works for the county paper, and of course he has to be at the only Ford County's brutal murder/rape trial. So he is, and for nearly 55 pages we are DRAGGED through the details of the murder, and the deliberations of the jury. Since we already knew they would find him guilty, we are not surprised that Grisham wastes another 30 pages dragging that matter out.And then the threat from the rapist, and following his sentencing to life in prison (which somehow, according to Mississippi Law, really only means roughly 10 years, give or take).At that point, one would think Grisham would delve right into the retribution of the rapist after he gets out of parole a few years later. But no, this is not the case. Grisham wastes about 150-200 pages talking about complete and utter nothingness--

it's all filler. Nothing important. Just skip until about page 300 in the hardcover, and you will find out that the rapist starts mudering his jurors. And Grisham doesn't even do that well.He totally screwed this one up. He wasted 2/3 a novel with pointless things, the characters lacked development, the suspense was null, and a family having 7 PhD children, while the parents are dumb as dirt, just defies genetics.Grisham: I still like you, but you really struck out with this one.Audience: Do not read this unless you are in masochism. But if you are, then read it, or watch the View.This is nothing like the fantastic The Runaway Jury, so don't be dupped like I was in thinking The Last Juror would be like that!

• I wasn't expecting much based on some of the negative reviews about this book, and perhaps that was why I enjoyed it so much. True, it's not at all like Grisham's thriller genre, but it does have the courtroom element and this, coupled with his styles in "A Painted House" and other great reads of his, makes it enjoyable and fun. The story itself is not that unusual but the masterful telling of it reminds me of "King of Torts. Overall I thoroughly enjoyed it. Would also recommend "In This Mountain" and a great new book I just discovered: "The Bark of the Dogwood" by Jackson McCrae.
