REVIEW OF SUCCESS CHEMISTRY SPM OXFORD FAJAR

- Giving *The Hobbit* less than 5 stars is absurd. When one talks about Tolkien "dilly-dallying and such" one is referring to his complex style of writing. Quite frankly, Tolkien is not "less," he is "more." He demands that one pay more attention, he gives one more information. If one wishes to say that more isn't always better, then fine. The rest of us don't expect them to understand. Let me put it this way: It is like Champagne. People don't dislike Champagne, they merely don't understand it. These idiot reviewers "Larry", "Curly" and "Moe" don't prefer the taste of Champagne to 7UP, they simply can't taste it. Is it their limited capacity for intelligence? Is it upbringing? It doesn't really matter what it is, all that matters is that they can't "taste" *The Hobbit*. But those of us who can, can- and we love the taste. After all, we have no choice. These are people who would rather eat Aunt Jemima pancakes with fake syrup than have hot crepes rolled with fine preserves. Really, do the opinions of these people actually count? It is understood by many that an opinion is only an opinion- how untrue this is! In the legal world an opinion is something that is ruled and weighed to be best, to be most true. There is such a thing as a good opinion, even the best opinion. And opinion can be right and an opinion can be wrong. I daresay that giving *The Hobbit* 3 stars is wrong. And

why do I dare? Because if someone told us that cow manure tasted better than ice cream they would be wrong. The bottom line is this: Mozart is better than The Beatles; Ferraris are better than raced out Subarus and Ice Cream does, in fact, taste better than manure. If, like this idiot, you are a simpleton who can neither hear, taste nor see then don't bother to post your opinions to the rest of us. Instead, take my advice and cozy yourself up with something you can understand like Harry Potter and let yourself float away to the world of unimagination. You will be much happier and won't have to deal with the headaches of trying to figure out what Tolkien is trying to say, nor will you have to deal with the frustrations of not being able to see in full color and dimensions the Dwarves and Elves and Wizards they way that the rest of us can. I almost pity you, but then, you wasted 60 seconds of my life with degenerate reviews so on second thought, get out of my gene pool and stop breathing my air. It's people like you that make the rest of our lives so two-dimensional by preventing more work like *The Hobbit* from ever being created with your lack of understanding and abundance of stupidity. P.S. *The Hobbit* is a great book, arguably the greatest, certainly the greatest in its own league. It was written by an adult and is absolutely suitable for adults. The fact that it may also be enjoyed and understood by children is only a further credit to Tolkien's genius. Don't let the altogether too commonly found ramblings that this is a book for children discourage you from reading it if you haven't already. While not everyone is capable of enjoying it, it is criminal not to at least expose everyone to this book for anyone who is capable of enjoying it who is denied the opportunity has been

cheated of one of the finest intellectual pleasures of this past century. My advice to you is to read it slowly and thoroughly. It is an experience like nothing else that will never be quite as magical the second time around. P.P.S. If you don't know what *The Hobbit* is about, in short, it is about Adventure. A great Adventure full of Swords and Magic; of Dwarves and of Elves and of Wizards and Hobbits; Good, Evil; Trolls and Goblins; Suspense, Excitement, Comedy and Tragedy; Music, Riddles and Poetry. All of this presented in one of the most unique styles of writing ever encountered; a style of writing that paints every detail of Tolkien's fantastic world in your mind as if you were there. Not a single word is wasted and every element of the story is to be enjoyed. If any of these things sound even remotely fascinating then read this book- you won't be disappointed. P.P.P.S. Comments about the illustrated versions for those trying to decide between the two illustrated versions of *The Hobbit* done by Alan Lee and Michael Hague: I recommend the Michael Hague edition hands down. The illustrations seem to fit the book much more than Lee's. Lee's anything but poor, but Hague's are more merry, bright and rich. The characters appear heartier and the colors set a better mood. More simply put, when I look at Lee's illustrations I feel like I'm standing in the dining room of

somebody's grandmother- wallpaper, china dolls, lace and all- they just seem old and dry. Hague's characters, the dragon especially, seem more believable- when I turn the page I don't get a feeling like what I'm looking at is out of place. Another difference with Hague is that I am confident that anybody would enjoy his illustrations, but with Lee I merely see why some people 'might prefer it.' Hague really does have that illustration feeling I expect to see in a book; Lee's look like they belong on a museum wall. Also, I feel that Hague took a more direct interpretation of the book while Lee seemed to illustrate as he liked to fit his own style without much less regard to the book. Still, before buying I suggest you sample the art on the internet just to be sure of your tastes. However, if you're uncertain then I am confident that you and especially your children will enjoy Hague.

- My 11-year-old daughter liked this performance. She and I listened to it together once a week over a month or so. The actor's performance is very good. The elements of the story are terrific--it's quite an adventure that Bilbo goes on. The prose itself is rather plodding, I thought, especially since we just finished the Harry Potter books. At times, Tolkien's narrative reads like a legal brief. But overall, it was mostly entertaining.
