REVIEW OF CECILY NEVILLE MOTHER OF RICHARD III

- I ordered this book from Russia. Relying on the lack of such books in our country, it is really valuable material. I'm glad i have it now and strongly advise you to purchase one. Best wishes!
- I read this series in junior high and loved it. Very original and very unique take on the secret agent genre. The main character is given the chance to be a top operative for a clandestine organization. Dying of cancer, he is given the opportunity to move his mind into cloned bodies. The only catch: the bodies break down after a period of time, giving him a very mortal deadline to his missions. I got into this series at the same time as the Destroyer and Mack Bolan books. This was by far my favorite. I highly recommend this to fans of extraordinary adventure.
