## REVIEW OF RPP K13 2017 X SIMULASI DAN KOMUNIKASI DIGITAL SMK

- People looking for a simple introduction to the question of extraterrestrial life will find this book easy to read. Physics professor Parker begins with basic descriptions of life on Earth. He then devotes three chapters to Mars, including the possible existence of microfossils in a chunk of Mars that hit the Earth as a meteorite. Parker moves on to extrasolar planets and the radio search for extraterrestrial intelligence. After touching on interstellar flight, he closes with a discussion of the claim that Earth has been visited by aliens. All this adds up to a broad brush overview, leaving out most of the detailed arguments associated with this question. The writing, which avoids equations and elaborate statistics, seems to be aimed at the high school level. Some of the black and white illustrations, particularly the caricatures of scientists, are surprisingly crude.

- While this book did have some good information and was very accessible for those unread on this subject, it was LOADED with strawman arguments, and questions for his opposing side that presuppose his own view. Ie. Location 1022, "Can the Covenant Be Transferred to Someone Else for Fulfillment?" "If I were to be looking to learn about end times prophecy, I would surely look for another source than Benware. Like many other's who wrap their entire ministry around a system of secondary theology, he misses the point all together by not pointing the reader to Jesus but to dispensationalism.
