REVIEW OF BASIC ENGLISH FOR COMPUTING TEACHERS BOOK REVISED UPDATED EDITION

• I assume that people interested in audio versions of O'Brian's novels have already read the books. So, listening to a reading version is a supplementary pleasure that can follow a great read. My rating here has nothing to do with the literary quality of the work in question. The whole Aubrey-Maturin series is superb. But if you want to listen to them I recommend that you stay away from any read by Simon Vance. He is unable to sufficiently differentiate the characters, with their diverse accents from around the world. For example, Maturin grew up in Ireland, and should therefore have a bit of an Irish accent. Vance can't do it, and offers stuffy readings that makes Jack sound like a bombastic jerk, and Stephen like a

mincing prig. And in his hands, Diana sounds like a silly simpering ninny. An actor, not just a reader is required. I highly recommend Patrick Tull, who recorded the entire series with consistent success and enthusiasm, as well as John Lee, who unfortunately only recorded the first 6 volumes.

- I'm a newby to crochet, but this book is excellent! I bought it about 4 months ago through Amazon and I am so happy that I bought it. It tells you exactly how to hold and make serveral stiches clearly. The projects are easy too! So if your starting to learn or an expert, I highly recommend this book.
