REVIEW OF HEIDELBERG GTO 52 SERVICE MANUAL

- I picked "The Heart is a Lonely Hunter" up before Oprah Winfrey mentioned the book and put it in her club. Interestingly enough, the book was referenced to me by someone who is quite different from Oprah: The late controversial poet and novelist Charles Bukowski, "The laureate of the low lifes," as Time referred to him disgustedly. For the last five years I have been utterly

obsessed with this man and his writings. It was Bukowski who had turned me on to other fantastic writers like John Fante, Celine, Ezra Pound, and Sherwood Anderson. He also name drops Carson McCullers in many of his poems and in some of his published interviews (As a big fan of Henry Miller, I found out that McCullers was also a favorite of this author of "Tropic of Cancer" and the Sexus/Plexus/Nexus trilogy). So I picked up as many of her books as I could find, and I started off by reading "The Heart is a Lonely Hunter." And what a fantastic book it is. I could identify with so many of the characters in this book (published in 1940) that I was like, "where has this book

been my whole life?" Unbelievable! Yes, it is sad in some few parts but it is never "sappy" sad. For me, the saddest part was when Bubber accidentally shoots another small child - and whereas before this incident Bubber was a chipper, talkative boy who liked dressing up in costumes (although he was often made fun of for it) and singing, he breaks down after the accident and becomes totally withdrawn, and stops playing with other kids. It is remarkable to think that Carson McCullers had the keen political and social insight to write this book at the age of 23. This book was years ahead of its time in its social and political commentaries. Besides the aforementioned gun

accident (which subtly painted an ugly picture of a culture obsessed with guns), this book addresses class struggle, racism, bigotry, political apathy, materialism, drug abuse, the inequalities of the criminal justice system, and other important issues. Most of this book found me smiling and nodding my head up and down. This is so true in reading about Blount and Dr. Copeland. Blount is a white, blue collar worker who is frustrated with the capitalist system in America, but he is laughed at by other poor whites and greeted with apathetic indifference when he suggests that they should band together and strike for better conditions. Copeland is

a black doctor who also tries to get black people in this depression-era town to strike, but he is greeted with the same responses as Blount. In fact, the poor whites and the poor blacks in this town would rather remain separate from one another drowning to the bottom of their liquor bottles than to try to make their lives better. Political apathy? My, how little has changed from 1940 to 2005. When I first read this book I had to force myself to put it down, and every year I find myself re-reading the entire book or parts of it. All I can say is that this is a fantastic novel, one of my top five books of all time. I don't know how or why this book could merit less than five stars. Read it.

- An excellent book. There are many other books out there that cover the same material, but I find this one to be one of the best in it's content and logical order. The only thing missing in it that I would like to see is a chapter on internet tools for Bible study and how to use them. As far as I know, there is no book that covers this.
