## **REVIEW OF TU ARMERIA ONLINE ARMAS DE FOGUEO ARMAS DE AIRE**

- This book is a wonderful tool for parents wishing to teach their baby to sign. Much of the frustration of the toddler years results from a child's

inability to communicate with others. I only wish that I had started earlier with my children. I began teaching my twins to sign at 16 months. Within 3 weeks, my son was signing "more" spontaneously. My daughter was resistant to signing at first and then finally would sign when she thought no one was looking. Now she does it openly and with a big smile since she realizes the power of communication! At 18 months now, they both sign "more", "milk", "please" and "mama". We have also made up a few signs like "blankie" that they are learning to use. It has really reduced some of the frustration in my home, and I plan to continue to use sign with them for as long as it remains useful. I do have a background in sign (I am an audiologist), but this book is simple enough for anyone without any knowledge of sign language to use. A must for every parent of an infant or toddler.

- This book is a pretty thorough review of JFC and the individual components. Familiarity with AWT is recommended to cruise through this book though.
