## **REVIEW OF FUNCTIONAL ENGLISH I**

- With the current controversies with regards to religion, the Bible and Christianity, I am at a loss to understand why "The Age Of Reason" by Tom Paine is not a million seller. I have found that although many people, famous and otherwise, often quote or paraphrase Tom Paine, few have actually taken the time to read what he had to say. Whether you are a defender of established religion or a detractor, you should read "The Age of Reason" by Thomas Paine. If you are a defender of the Bible or any religion other than Deism then you are going to have a challenge defending your views against the logic contained in this book. If you think that you know the "truth" then you should not fear such a challenge. What this book has to say is as valid and logical as the day it was written. Richard Edward Noble - The Hobo Philosopher - Author of: Mein Kampf - An Analysis of Book One

- I understand that this is a Memoir but at points it was pretty sexually graphic. I could not allow my kids to read this book. I found it to be a really sad story. It is amazing to me what people are forced to live through and if you want to read a true to life story, it is well written.
