REVIEW OF CRISIS MANAGEMENT IN ANESTHESIOLOGY 2ND

EDITION

- Barbara Kingsolver's The Bean Trees is an intriguing, heartfelt novel that emphasizes the amazing bond between parents and children, and well as the connection between true friends. You watch as Taylor Greer goes from a small-town girl with no life experience, to a strong, incredible young woman. I recommend this book to anyone who is looking to fall into a story of strength, self-discovery and true friendship.
- If you got a little tired reading the Poisonwood Bible, as I did, you'll be pleasantly surprised by this book. Don't get me wrong-- I really enjoyed Poisonwood, with its mix of engaging female narrators and insight into a foreign culture and history... this book

has some of the same elements. Taylor, formerly known as Marietta, is a tough, smart, brash Southern gal with a great turn of phrase. She leaves Kentucky in a beat-up old car, driving West, and along the way, is literally handed a small Indian girl. She ends up caring for the girl, and settling in Tucson. There she moves in with another displaced Kentuckian (like Poisonwood, we get a few chapters from another character's pov, but unlike that book, most of the time we stay with Taylor) and finds a job in a bodyshop. There she meets some Guatamalan refugees...without giving any more away I will say that I had never given any thought to the plight of

Guatamalan refugees, but the way Kingsolver drew them into the plot, quietly and gently, I ended up in tears more than once. There is a scene towards the end that truly had me bawling. I really enjoyed this book-- it was a fast read, hard to put down-- but it had substance, too. It wasn't just another light, fun, "Southern woman finds herself" sort of novel-- it had real depth, addressing issues of motherhood, family and connections-- as well as the specific issue of refugees (how can a person be "illegal" a person can be good or bad, but illegal? is typical of Taylor's thoughts-- and it made me stop and think, too). Highly recommended!
