So what are you waiting on? Beginning your Basics Of Ate Test Ictest8 downloading and install trip today and experience all the benefits and convenience that the digital globe of books needs to provide!

REVIEW OF BASICS OF ATE TEST ICTEST8

- I found Mr. Inglis' voice characterizations to be poorly conceived and executed, and consequently this audiobook pales when compared to the two fully dramatized versions of The Hobbit by Minds Eye and the BBC, both beautifully realized. I grant that this is an unabridged reading, not a dramatization, but for an example of how the characterizations could have been accomplished, and for sheer listening pleasure you must compare this to the Harry Potter audio books read by Jim Dale. Jim Dale brings the characters to life in his reading with amazingly diverse voice characterizations, speech affectations, differing accents and pacing, such that the voices really suit the characters. In comparison, Mr. Inglis has a very narrow range of voice characterizations, and to my taste his characterizations were distinctly amateurish, flat and one-dimensional really, which was surprising in light of his Shakespearian credentials and disappointing after my experience with the triumph that Jim Dale brought us in the Potter series. In addition there are some rather horrible errors which should have been caught, and these now seem telling in the overall sparkless, indifferent and uninspired performance of this classic. An example of one such error: "Confusticate and bebother those dwarves!", which was flubbed by Inglis, saying "Confiscate" instead of "Confusticate". It is possible that Mr. Inglis thought to correct the text, as there is really no such word as Confusticate, nor "Eleventy-One" for that matter, but this may also underscore Mr. Inglis' ill-suited understanding of The Hobbit.

- While I really appreciate all the corrections in the text which makes the book a more enjoyable read and the addition of all Tolkien's illustrations included as he wished, I find the quality of the paper as well as the black & white drawings very poor and not up to the honor of a 70th anniversary edition. HarperCollins would have and should have done it and the quality would match the occasion.
