REVIEW OF MANAGERIAL ECONOMICS AND BUSINESS STRATEGY 7TH EDITION SOLUTIONS FREE

- I thought this book was for men...later i understand what this was about. I have to agree that most men are so stupid that yes some of these techniques will work for them. But let me think about something. Women do not approach guys and especially in cold approaches. SO this is about men in their social circle

who women find attractive and they want to have a relationship with them (If they just want sex they only have to show them that they like them sexually - and when i mean sexually i mean it - Not the miserable girl that beg with their manners for 50 dates after sex , but be a little playful sluty). In case of relationships attraction is not a choice. If you like him, you like him and this is the end. If he is so pussy to go for what he wants then maybe by applying these manners you may intrigue him, especially if he is young. But is this an authentic man? I dont think so. The real man goes for what he wants and he approaches women - if he doesnt get her he goes for another one. He is not so emotionally involved in the beginning (as many women are). He begins to be

emotional after sex (Im talking about a real man - observe it and you will see that i am right) What is important in the beginning is the appearance. Fix your body (the height doesnt count in most cases) Hit the gym, Then go to a place where they are men, and just be near them (I understand that you will not open them (its the ego and it is ok if you are a woman). (Clubs - coffe shops - parties - places with rock music) ANd do not go with more than 3 friends -> its so difficult .I also have to say that these techniques work also from men to women (most of them who have success with women do these things unconsciously - since its about women that they can find easily. A hot woman has the more approaches. She doesnt need these tricks . As also hot men do

not need tricks (most of them) If you want a serious relationship, let him take the control. Even when he goes for other women he will return to you. Most men want many women - Its in their dna, and this is the truth. This is not bad since they do not get emotionally involved as they will with you. They dont have to love a woman to make sex. This is what happens and that why the hot men have so many women that they behave as jerks. Another think i have noticed is that not so good women (fatty and miserable) have a lot of insecurity and wait for the perfect one (Brad pitt clone). Yes this happen to the most ugly girls ironically. The most hot women do not care so much about appearences but only about sex, fun and security - and thats why they like them. If you are fat

you have almost no chance with a hot male (and fotget the alpha male) You have to understand that a man is not a girlfriend with a penis. He likes football, women , work and socializing. He is not albe to speak like a woman. On the other hand if he has no humour - stay away from him, no matter how hot he is. He is a stupid man beyond the men circle. Read the books: How to become an alpha male + Bang to get the idea

- it reminded me a little too much of The Rules. I know that men like a challenge (just like women like a challenge too). But there's something to be said for being yourself and doing what comes naturally, and not playing games--or you might attract someone who isn't right for the real you. That said, while I wouldn't take this book as gospel, it's definitely

worth reading and thinking about.
