REVIEW OF BUSINESS FOR THE 21ST CENTURY BY SKINNER

• I really liked the very complete historical content of this novel, based on historical content alone I would have given it a strong 4 stars. However,

there was just too much superfluous romantic content for my taste. At the risk of being label a sexist, for that very reason I rarely buy a book written by a woman and probably wouldn't have bought this one if I realized the author was a woman. In addition to the romantic content there was another technique that irritated me, but it was necessary to make the romantic angle work. Namely, the book contained way too many coincidentally meetings of people. People seemed to be tripping over people they knew everywhere they went. I'm of mixed minds about whether or not I'll buy the sequels to this book. I assume the author will continue the romantic mode, this for me is be a big factor. Long story short, if you like history AND

romance novels you'll love this book; if you don't like romance novels, not so much.

- Had he been born in the 18th or 19th century, Wilfred Thesiger would have explored the Nile or mapped uncharted territory in North America. His mid-twentieth century journeys in the Empty Quarter of the Arabian Peninsula, related in this book, confirm him as an acute observer of humanity and an untrained but brilliant amateur anthropologist. This book is unparalleled.
