REVIEW OF COSMETIC FACIAL SURGERY BY JOE NIAMTU III

- SPOILER ALERT - Don't read this review if you don't want to read spoilers. This novel is santimonious, full of liberal cliches about the world (e.g., all the illegal immigrants are nice, the old white women are racists, native Americans have some inherent wisdom that the rest of us lack, etc.). I resent being

"preached" to, and that's what Kingsolver does in this novel, but she does it in a way that is not even entertaining or well-written. The author uses every opportunity to put cutesie rural sayings in the mouths of the characters. It's overkill. The ad nauseum "rural wisdom" dispensed by the protagonist is annoying rather than endearing. Kingsolver has created characters and dialogue here that manifest what she THINKS is authentic and what people who have never lived in the south expect and believe is "authentic" but really isn't (btw, I grew up down south). Beyond all that, the plot is ridiculous: Let's get this straight---a young woman who, disdainful of the girls in her small town who get pregnant and stay stagnant, decides to take off cross country in a clunker of a Volkswagon Beetle (no cliché there, right?). Outside of a bar one night, a strange woman drops a baby in the protagonist's car. Now, what would you imagine such a girl would do? Call the police? Even go into the bar and tell the owners what just happened to find out if they know the woman? Oh, no---she KEEPS THE BABY! Yes, the same character who days earlier vowed not to be tied down, just casually accepts this lifelong responsibility. Obviously, I do not recommend it.

- This was the first book by Barbara Kingsolver that I read, and now I'm reading the trilogy!! We had to choose an author to write about for my English class, and I chose her!!!
