## REVIEW OF 2008 VW PASSAT SERVICE

- I would definitely recommend this book to anyone , espeacialy people who love books with traveling and books with a little violence involved in it. It can be a little confusing at first but when you start getting into it, it is a fantastic book!
- A great little book that shares some of the 'magic' of animal life in the desert. Engaging pictures and creative text. Too bad the board book version doesn't have the glossary that's mentioned in one of the 'offical' reviews. So in case you didn't know, "javelina" are medium-sized mammals of the family Tayassuidae, and an "ocotillo" is a desert plant that looks like dead sticks for much of the year, but grows small leaves during rainy periods.
